Re: SpaceLink Corporation Withdrawal of IBFS File No. SAT-MOD-20200526-00057 (pending) (Call Sign: S2982)

Dear Ms. Dortch:

SpaceLink Corporation ("SpaceLink"), through its attorneys, hereby withdraws the above-referenced application filed on May 26, 2020, to modify the non-geostationary satellite orbit ("NGSO") fixed satellite service ("FSS") system authorized under Call Sign S2982.¹

SpaceLink remains firmly committed to launching and operating the world's first commercial satellite relay network. The instant letter does not propose additional modifications or changes to any technical parameters or spectrum frequencies previously authorized by the Commission pursuant to IBFS File No. SAT-LOA-20161115-00117 (granted) for SpaceLink's use in the aforementioned NGSO FSS relay system.

-*-*-*-*-

Please contact the undersigned if there are any questions concerning this matter.

Respectfully Submitted,

/s/

Timothy L. Bransford
Counsel to SpaceLink Corporation

¹ See EOS Defense Systems USA, Inc., Modification of Authorization for Audacy NGSO Satellite System, IBFS File No. SAT-MOD-20200526-00057 (filed May 26, 2020), which seeks to add the 17.70-18.60 GHz, 18.80-19.40 GHz, 19.60-20.20 GHz, 27.50-29.10 GHz and 29.50-30.00 GHz for service links, and the 19.70-20.20 GHz and 29.50-30.00 GHz for full-power feeder link service.
