Re: **Notice of Results of In-Orbit Testing and Arrival On-Station of Galaxy 30**
Call Sign S3016; File No. SAT-MOD-20200805-00091

Dear Ms. Dortch:

Intelsat License LLC, as debtor in possession (“Intelsat”), in accordance with the Federal Communications Commission’s (“Commission”) rules,¹ hereby notifies the Commission that the in-orbit testing of Galaxy 30 was completed on February 2, 2021, and that the satellite arrived on-station at its licensed orbital location of 125.0° W.L. on January 21, 2021. Intelsat also certifies that Galaxy 30’s operational performance is consistent with its license,² and that the satellite is capable of using all of its assigned frequencies. Further, consistent with the Galaxy 30 license,³ Intelsat hereby informs the Commission that Galaxy 30 was placed into operation at 125.0° W.L. on February 2, 2020.

Additionally, Intelsat requests a determination from the Commission that the milestone for the Galaxy 30 satellite, requiring launch and operation of the satellite, has been satisfied and, as a result, Intelsat may release the bond for Galaxy 30.⁴

Sincerely,

/s/ Cynthia J. Grady
