

**Response to Questions 30-34: Alien Ownership**

In response to Questions 30 and 31 of Form 312, Telesat Canada is organized under the laws of Canada. Additional details regarding Telesat Canada's ownership can be found in Exhibit 3.

Questions 32 and 33 of Form 312 ask whether the Applicant, Telesat Canada, is: (1) a corporation of which more than 20 percent of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country; or (2) directly or indirectly controlled by a corporation of which more than 25 percent of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country. These questions are intended to ascertain whether the applicant complies with Sections 310(b)(3) and 310(b)(4) of the Communications Act, which establish limits on foreign ownership of the licensees of broadcast, common carrier, aeronautical en route, and aeronautical fixed stations. Sections 310(b)(3) and 310(b)(4) are inapplicable to the proposed satellite constellation, because the satellite constellation is not an aeronautical en route or aeronautical fixed station and Telesat Canada does not propose to provide broadcast or common carrier service via the satellite constellation.
