Ms. Magalie Roman Salas, Secretary
Federal Communications Commission
1919 M Street, N.W., Room 222
Washington, D.C. 20554

Dear Ms. Salas:

Re: Loral/QUALCOMM Partnership, L.P., File Nos. 19-DSS-P-91(48),
CSS-91-014 & 21-SAT-MISC-95

By *Order and Authorization* released January 31, 1995, 10 FCC Rcd 2333, the Commission granted Loral/QUALCOMM Partnership conditional authority to construct, launch and operate the Globalstar™ low-earth orbit satellite system. The authorization was subsequently transferred to L/Q Licensee, Inc. ("LQL"). One condition (ordering para. 30) required that LQL complete consultations under Article XIV of the INTELSAT agreement and Article 8 of the INMARSAT Convention. This is to notify the Commission that the condition in ordering para. 30 is fully satisfied.

INMARSAT. On February 3, 1998, INMARSAT informed the U.S. Department of State that "the planned use by LQL of separate space segment facilities will be technically compatible with the Inmarsat system," and that "proposed use of the separate facilities is deemed no to cause significant economic harm." INMARSAT's letter was transmitted to LQL on February 12, 1998.

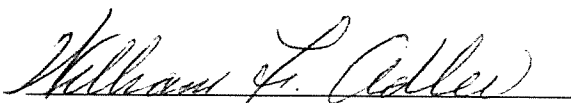

INTELSAT. On April 9, 1998, INTELSAT notified COMSAT, the U.S. Signatory, that the proposed use of the Globalstar system "is technically compatible with the use of the radio frequency spectrum and orbital space by ... INTELSAT," and that the proposed use "would not cause significant economic harm ... and would not prejudice the establishment of direct telecommunication links through the INTELSAT space segment among all participants." COMSAT forwarded this letter to LQL on April 14, 1998.

Ms. Ms. Magalie Roman Salas
