WorldVu Satellites Limited, Petition for a Declaratory Ruling Granting Access to the U.S. Market
for the OneWeb System
IBFS File No. SAT-LOI-20160428-00041

Dear Ms. Dortch:

On March 6, 2016, representatives of Kepler Communications Inc. (“Kepler”) met with representatives of the International Bureau to discuss Kepler’s pending applications to operate non-geostationary satellite orbit (“NGSO”) fixed-satellite service (“FSS”) systems in the Ku-band. Participating in the meeting on behalf of the International Bureau were Jose Albuquerque, Karl Kensinger, Stephen Duall, Chip Fleming, Christopher Bair, Cindy Spiers, Kathryn Medley, Kerry Murray and Merissa Velez. Participating in the meeting on behalf of Kepler were Mina Mitry and Nickolas Spina.

The meeting participants discussed the general progress of Kepler’s system from both a technical and business merit perspective. Kepler clarified developments on the Canadian front with regards to the moratorium/licensing as well as on the international front from an ITU filing state. Product development is on track and Kepler remains confident in ISED’s ability to grant a space license prior to operations commencing in November, 2017.

In regards to ground stations, Kepler noted that due to the newly proposed licensing requirements in Canada – it intends to operate both TT&C and its gateway within the confines of Canada. Of note was the discussion of an additional filing to be presented to the ITU in the near future which, would allow Kepler to accommodate further bands within its proposed system.

Furthermore, Kepler highlighted its continuing financial stability as well as the signing of its launch contract with the PSLV for Q4 of 2017 with a second launch planed for Q1 of 2018.

Pursuant to Section 1.1206(b)(2) of the FCC’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceedings.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to contact me.

Sincerely,

/s/ Nickolas G. Spina**Nick G. Spina** | Manager Launch & Regulatory AffairsO: [437-537-5371](tel:437-537-5371) x 207
