WorldVu Satellites Limited, Petition for a Declaratory Ruling Granting Access to the U.S. Market
for the OneWeb System
IBFS File No. SAT-LOI-20160428-00041

Dear Ms. Dortch:

On June 2nd, 2017, representatives of Kepler Communications Inc. (“Kepler”) met with representatives of the International Bureau to discuss Kepler’s pending applications to operate non-geostationary satellite orbit (“NGSO”) fixed-satellite service (“FSS”) systems in the Ku-band. Participating in the meeting on behalf of the International Bureau were José Albuquerque, Kathryn Medley, Stephen Duall, Chip Fleming, Cindy Spiers, and Carlos Flores. Participating in the meeting on behalf of Kepler were Mina Mitry and Wen Cheng Chong.

The meeting participants discussed the letter received from the commission dated March 21, 2017 and the subsequent response supplied by Kepler dated April 20th, 2017. The commission requested further clarification on the information provided with regards to Kepler’s final constellation operating parameters; including geographic coverage and SDR capabilities. In addition, the NGSO Notice of Proposed Rulemaking was discussed highlighting the proposed BIU and bond requirements.

Kepler representatives provided a general update of the system from both a technical and business perspective. Kepler reiterated product development was on track and Kepler’s first spacecraft remains scheduled for launch at the end of 2017. Kepler remains confident in ISED’s ability to grant a space license prior to operations commencing in November, 2017.

Pursuant to Section 1.1206(b)(2) of the FCC’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceedings.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to contact me.

Sincerely,

/s/ Nickolas G. Spina**Nick G. Spina** | Manager Launch & Regulatory AffairsT: [437-537-5371](tel:437-537-5371) x 207
