)
Petition for a Declaratory Ruling Granting Access) (Call Sign S2981)
to the U.S. Market for the Kepler NGSO FSS)
System)

ADDITIONAL INFORMATION REGARDING AUTHORIZATION

Kepler Communications Inc. (Kepler) hereby responds to the Commission's request for information. This response is in respect to Kepler's application for market access for a non-geostationary satellite orbit (NGSO) fixed-satellite service (FSS) system. Kepler was previously requested to provide additional information with regards to the review of its orbital debris mitigation plan by Industry, Science & Economic Development Canada, the licensing authority (ISED).¹ At the time of the request, ISED had a moratorium in place.² This was discussed in Kepler's previous response to the Commission.³

In response to the Commission's request⁴, Kepler is hereby submitting a copy of the authorization issued by ISED. Should there be any outstanding requirements, please do not hesitate to contact me.

Respectfully submitted,

Kepler Communications Inc. - May 2, 2018
