Re: Hiber, Inc., Supplement to Orbital Debris Assessment Report
IBFS File No. SAT-PDR-20180910-00069; Call Sign S3038

Dear Ms. Dortch:

Hiber, Inc. ("Hiber"), through its counsel, submits the attached supplement in response to several International Bureau questions regarding the company's orbital debris assessment report ("ODAR").¹ Additionally, in the supplement, Hiber identifies several minor corrections to a number of the technical and operating parameters used in the ODAR calculations.² Those corrections, individually and in the aggregate, have no material impact on the ODAR analysis.

If you have any questions regarding the supplement, please do not hesitate to contact me.

Very truly yours,

/s/Tony Lin

Tony Lin
Counsel to Hiber, Inc.

¹ See Letter from Lynne Montgomery, Counsel to Hiber, Inc., to Jose Albuquerque (February 22, 2019); see also Letter from Tony Lin, Counsel to Hiber, Inc. to Marlene H. Dortch (March 1, 2019).

² For example, Hiber has corrected the mass of the two operating satellites (from 7.23 kg to 7.5 kg) and provided a more precise apogee value (e.g., from 599.9 km to 597.9 km for Hiber-2) and perigee value (e.g., from 580.3 km to 582.6 km for Hiber-2) for each of the two satellites.
