

AST&Science LLC Application for U.S. Market Access
FCC Form 312: Response to Questions 30-34

In response to Questions 30 and 31, AST& Science LLC (“AST”) is organized under the laws of the United States.

In response to Questions 32 and 33, the Commission seeks information regarding whether an Applicant is either: 1) a corporation of which 20 percent of the capital stock is owned or voted by aliens or their representatives, or by a foreign government or its representative, or by a corporation organized under the laws of a foreign government; or 2) a corporation that is directly or indirectly controlled by a corporation of which more than 25 percent of the capital stock is owned or voted by aliens or their representatives, or by a foreign government or its representative, or by any corporation organized under the laws of a foreign country. AST avers that these questions are designed to seek information related to an Applicant’s compliance with Section 310 of the Commissions Act of 1934, as amended. In particular, Sections 310(b)(3) and 310(b)(4) impose limits on the level of foreign ownership that the Commission may allow of any broadcast, common carrier, aeronautical en route, or aeronautical fixed station licensee. AST does not seek a license to provide any of these services, and therefore these questions are inapplicable to its Application.
