Re: Permitted Space Station List Authorizations for Eutelsat 115 West A, Files Nos. SAT-PPL-20121218-00217, SAT-APL-20130308-00028 and SAT-PDR-19991214-00131 (Call Sign S2589); and Eutelsat 115 West B, File No. SAT-PPL-20150227-00008 (Call Sign S2938)

Dear Ms. Dortch:

Satélites Mexicanos, S.A. de C.V. ("Satmex," now operating as Eutelsat Americas) hereby confirms that the Eutelsat 115 West A satellite has been deorbited. The Commission's Permitted Space Station List entry correctly indicates that the replacement satellite, Eutelsat 115 West B (ITU Designation: Mexsat 114.9 C-Ku), is operating in the subject orbit location.¹ However, the entry heading still indicates Eutelsat 115 West A (ITU Designation: Morelos 2R) as the authorized satellite. Satmex respectfully requests that the Commission update the entry heading to reflect the details of the Eutelsat 115 West B satellite.

Please feel free to contact the undersigned with any questions regarding this submission.

Respectfully submitted,

Carlos M. Nalda
On behalf of Satélites Mexicanos S.A. de C.V.
