Ms. Marlene H. Dortch Secretary **Federal Communications Commission** 445 12th Street, SW Washington, DC 20554

Re:

FCC File No. SAT-PPL-20130430-00064, Petition of Hispasat S.A. ("Hispasat") for a Declaratory Ruling ("Petition") to Add the Amazonas-1 Space Station at the 36° W.L. Orbital Location to the Commission's Permitted Space Station List in the 11.7-12.2 GHz (Space-to-Earth) and 14.0-14.5 GHz (Earth-to-Space) Frequency Bands and to Access the U.S. Market via Amazonas-1 at 36° W.L. in the13.75-14.0 GHz (Earth-to-Space) Frequency Band (Int'l Bur Dec. 27, 2013),

DA 13-2473 ("Hispasat Grant")

Dear Ms. Dortch:

On January 27, 2014, Skynet Satellite Corporation ("Skynet") submitted a request for clarification (the "Request") concerning the above-referenced *Hispasat Grant*, which added Hispasat's Amazonas-1 at 36.0° W.L. to the Permitted Space Station List. Skynet's Request addressed the relationship between the technical parameters specified in Hispasat's coordination agreements with Skynet for 36.0° W.L. and the technical parameters shown in Hispasat's above-referenced Petition.

Ms. Marlene H. Dortch June 25, 2014 Page 2

Skynet understands that Hispasat has moved Amazonas-1 to a different orbital location. Based on this relocation, Skynet asks that its Request be dismissed as moot, without prejudice to Skynet's ability to resubmit the Request should Amazonas-1 be moved back to 36.0° W.L.

Respectfully submitted,

Joseph A. Godles

Attorney for Skynet Satellite Corporation

cc (via e-mail and US mail): Vicente Rubio, Hispasat

_

¹ The Commission previously removed Amazonas-1 from the Permitted Space Station List because the satellite "is no longer operating at the 36.0° W.L. orbital location specified in the Permitted List." *See* Public Notice, Report No. SAT-01023, DA No. 14-851 (June 20, 2014) at p. 2.
