

**Inmarsat plc**  
**FCC Form 312**  
**Exhibit B**  
**Response to Question 36**

Inmarsat plc (“Inmarsat”) submits this response to Question 36 of FCC Form 312 out of an abundance of caution. In 2005, the Commission dismissed a Petition for Declaratory Ruling (the “Petition”) filed by Inmarsat’s affiliate, Inmarsat Global Limited (“Inmarsat Global”), seeking access to the United States market to provide MSS in the 2 GHz band. Subsequent to Inmarsat Global’s filing, the Commission assigned all 2 GHz spectrum currently allocated for MSS in the United States to two other satellite operators, and thus dismissed Inmarsat Global’s Petition.<sup>1</sup> Although Inmarsat Global sought reconsideration of those decisions, the Commission dismissed that request eight years later in light of the Commission’s actions with respect to licensing of the AWS-4 band.<sup>2</sup>
