

Response to Questions 30-34: Alien Ownership

In response to Questions 31 and 32 of Form 312, Telesat International Limited is organized under the laws of the United Kingdom. It is wholly-owned by a company that is organized under the laws of the Isle of Man and that is indirectly owned and controlled by Telesat Holdings Inc., a company organized under the laws of Canada. Additional details regarding Telesat International Limited's ownership can be found in Exhibit 3.

Questions 32 and 33 of Form 312 ask whether the Applicant, Telesat International Limited, is: (1) a corporation of which more than 20 percent of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country; or (2) directly or indirectly controlled by a corporation of which more than 25 percent of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country. These questions are intended to ascertain whether the applicant complies with Sections 310(b)(3) and 310(b)(4) of the Communications Act, which establish limits on foreign ownership of the licensees of broadcast, common carrier, aeronautical en route, and aeronautical fixed stations. Sections 310(b)(3) and 310(b)(4) are inapplicable to the proposed satellite, because the satellite is not an aeronautical en route or aeronautical fixed station and Telesat International Limited does not propose to provide broadcast or common carrier service via the satellite.
