ATTACHMENT TO GRANT
SES DTH do Brasil Ltda
IBFS File No. SAT-PPL-20160918-00093

IBFS File No(s):	SAT-PPL-20160918-00093	<p>GRANTED – With Conditions</p>  <p>International Bureau Satellite Division</p>
Licensee/Grantee:	SES DTH do Brasil Ltda (SES)	
Call Sign:	S2974	
Satellite Name:	SES-14	
Orbital Location: (required station-keeping tolerance)	47.5° W.L. (± 0.05 degrees)	
Administration:	Brazil, The Netherlands ¹	
Nature of Service:	Fixed-Satellite Service (FSS), Direct-to-Home (DTH) ²	
Scope of Grant:	Grant of U.S. market access, including the addition of the SES-14 space station to the Commission's Permitted Space Station list in the conventional and extended C- and Ku-bands and use of the 12.2-12.45 GHz and 17.3-17.8 GHz frequency bands for FSS.; ECO-SAT determination to support the provision of DTH services using the 11.7-12.2 GHz (space-to-Earth) frequency band within the United States and between the United States and various countries in Central America, the Caribbean, South America, and Europe	
Service Area(s):	See Schedule S at Item S6 and accompanying (.gxt) files.	
Frequencies:	3625-4200 MHz (space-to-Earth) 5850-6425 MHz (Earth-to-space) 11.45-12.45 GHz (space-to-Earth) 13.75-14.5 GHz (Earth-to-space) 10.95-11.2 GHz (space-to-Earth) 17.3-17.8 GHz (Earth-to-space)	

Unless otherwise specified herein, operations under this grant must comport with the legal and technical specifications set forth by the applicant or petitioner and with Federal Communication Commission's rules not waived herein. This grant is also subject to the following conditions:

1. SES must maintain its SES-14 space station with an east/west longitudinal station-keeping tolerance of ± 0.05 degrees of the 47.5° W.L. orbital location.
2. Communications between U.S.-licensed earth stations and the SES-14 space station must comply with all existing and future space station coordination agreements reached between Brazil, The Netherlands, and other administrations. In the absence of a coordination agreement, such communications must comply with applicable provisions of the International Telecommunications Union (ITU) Radio Regulations at the Commission cannot guarantee the success of the required conditions.
3. SES's use of the 3600-3650 MHz (space-to-Earth) band within the United States is subject to GN Docket No. 12-354, which limits FSS communications in the United States in the 3600-3650 MHz band on a primary basis to existing earth stations or to new earth stations within 10 miles of existing earth stations.³

¹ SES states that it will operate SES-14 under the licensing authority of Brazil. SES-14 will operate in the 3625-4200 MHz, 5850-6425 MHz, 10.95-11.2 GHz, 11.45-12.2 GHz, 13.75-14.5 GHz frequency bands under ITU filings submitted by Brazil (ITU Network: B-SAT-1W-2), and in the 12.2-12.45 GHz and 17.3-17.8 GHz frequency bands under ITU filings submitted by The Netherlands (ITU Network: NSS-BSS 47.5W). SES states that Brazilian authorities will register the SES-14 space object with the United Nations. Letter to Marlene H. Dortch, Secretary, FCC, from Karis Hastings, Counsel for SES DTH do Brasil Ltda (Feb.7, 2017).

² For purposes of this condition, DTH means the services subject to Section 25.701 of the Commission's rules. 47 CFR § 25.701.

³ *Amendment of the Commission's Rules with Regard to Commercial Operations in the 3550-3650 MHz Band*, GN Docket No. 12-354, Notice of Proposed Rulemaking and Order, 27 FCC Rcd 15594, 15646, para. 168 (2012).

ATTACHMENT TO GRANT
SES DTH do Brasil Ltda
IBFS File No. SAT-PPL-20160918-00093

All other FSS earth station operations in the 3600-3650 MHz band in the United States must be on a secondary basis.

4. Communications between U.S.-licensed earth stations and SES-14 in the 3600-3650 MHz (space-to-Earth) frequency band are subject to footnote US245 of the United States Table of Frequency Allocations, 47 CFR § 2.106, US245, which states that the use of non-Federal Fixed-Satellite Service in the 3600-3650 MHz band is limited to international inter-continental systems and is subject to case-by-case electromagnetic compatibility analysis.
5. Communications between U.S. licensed earth stations and the SES-14 space station in the 3650-3700 MHz (space-to-Earth) frequency band are subject to footnote NG185 of the United States Table of Frequency Allocations, 47 CFR § 2.106, NG185, which states that the use of the non-Federal Fixed-Satellite Service in the 3650-3700 MHz band is limited to international inter-continental systems.
6. Communications between U.S. licensed earth stations and the SES-14 space station in the 3650-3700 MHz (space-to-Earth) frequency band are subject to footnote NG169 of the United States Table of Frequency Allocations, 47 CFR § 2.106, NG169, which states that after December 1, 2000, operations on a primary basis by the Fixed-Satellite Service (space-to-Earth) in the 3650-3700 MHz frequency band shall be limited to grandfathered earth stations. All other Fixed-Satellite Service earth station operations in the 3650-3700 MHz frequency band shall be on a secondary basis.
7. Communications between U.S.-licensed earth stations and the SES-14 space station in the 5850-5925 MHz (Earth-to-space) frequency band must comply with the terms of footnote US245 to the U.S. Table of Frequency Allocations, 47 CFR § 2.106, US245, and Section 2.108 of the Commission's rules, 47 CFR § 2.108, which states that use of the non-Federal Fixed Satellite Service in the 5850-5925 MHz band is limited to international, intercontinental satellite systems and is subject to case-by-case electromagnetic compatibility analysis. SES and operators of U.S.-licensed earth stations must not claim protection from radiolocation transmitting stations operating in accordance with footnote G2.⁴
8. SES' request for waiver of footnote NG52 of the United States Table of Allocations, 47 CFR § 2.106, NG52, to use the 10.95-11.7 GHz (space-to-Earth) frequency band to offer domestic services on an unprotected, non-interference basis in the United States is GRANTED, as conditioned. SES's request involves space-to-Earth transmissions that meet the power-flux-density (pfd) on the ground required to protect fixed-service stations in the 10.95-11.20 GHz (space-to-Earth) and 11.45-11.70 GHz (space-to-Earth) frequency bands.⁵ SES has agreed to accept any level of interference from fixed stations, and operators of fixed stations will not be required to coordinate their operations with SES's receive earth stations.⁶ Under these circumstances, we determine that no additional coordination burden is placed upon fixed station operators and their ability to expand service in the future would not be restricted in any manner.⁷ Grant here is consistent with prior Commission precedent,⁸ and is subject to the following conditions:

⁴ For technical information of these radiolocation systems, see NTIA Report 83-115, Spectrum Resource Assessment in the 5650-5925 MHz Band, and NTIA Report 00-373, Measured Occupancy of 5850-5925 MHz and Adjacent 5-GHz Spectrum in the United States at <http://www.its.bldrdoc.gov/pub/pubs/php>.

⁵ See 47 CFR § 25.208(b).

⁶ SES DTH do Brasil Ltda, Petition at 10.

⁷ *PanAmSat Licensee Corp. Application for Authority to Use the Extended Ku-Band Frequencies for Domestic Service*, Order and Authorization, 20 FCC Rcd 14642, 14646 (Sat. Div., Int'l Bur., 2005).

⁸ For example, the Intelsat 29e space station, which is currently authorized to operate at 50.0° W.L, has a waiver of footnote NG52 for the 10.95-11.2 and 11.45-11.7 GHz frequency bands portion of the Ku-band as a condition of its current

ATTACHMENT TO GRANT
SES DTH do Brasil Ltda
IBFS File No. SAT-PPL-20160918-00093

- a. SES's transmissions in the 10.95-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency bands that provide domestic service are on an unprotected, non-harmful interference basis relative to fixed stations. As such, SES must not cause harmful interference to, or claim protection from, fixed stations to which frequencies in the 10.95-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency bands have either been already assigned, or to which frequencies in the 10.9-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency band may be assigned at a later date.
 - b. SES is required to inform its customers, in writing, including end-users receiving service from resellers accessing capacity on the SES-14 space station, that the service in the 10.95-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency bands with regard to domestic service is being provided on an unprotected basis, and that the potential exists that future licensed fixed stations may cause harmful interference to these earth stations
 - c. SES must terminate operations in the 10.95-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency bands upon notification that its operations are causing interference to fixed stations operating in this band, and must immediately inform the Commission, in writing, of such an event.
9. SES's use of the 10.95-11.2 GHz and 11.45-11.7 GHz (space-to-Earth) frequency bands is subject to footnote US211 to the United States Table of Frequency Allocations, 47 CFR § 2.106, US211, which urges applicants for airborne or space station assignments to take all practicable steps to protect radio astronomy observations in the adjacent bands from harmful interference, consistent with footnote US74.
 10. SES's request for waiver of the United States Table of Frequency Allocations, 47 CFR § 2.106, including a waiver of footnote US271 to Section 2.106, to provide FSS to the United States and its territories using the 12.2-12.45 GHz (space-to-Earth) and 17.3-17.8 GHz (Earth-to-space) frequency bands on a non-interference, non-protected basis, is GRANTED. Such operations must be on a non-interference and non-protected basis within the United States and its territories located within ITU Region 2. Waiver is justified because FSS operations in these bands are consistent with No. 5.492 of the ITU Radio Regulations and the nearest operational BSS feederlinks are 14° away at the nominal 61.5° W.L. orbital location.⁹
 11. The SES-14 space station FSS operations and associated earth stations must comport with the parameters of the Appendix 30/30A satellite network NSS-BSS-47.5W (submitted by The Netherlands) filed with the ITU for operation in the 12.2-12.45 GHz (space-to-Earth) and the 17.3-17.8 GHz (Earth-to-space) frequency bands and any additional conditions resulting from the coordination of this network.
 12. SES's request for waiver of Section 25.210(i)(1) of the Commission's rules, 47 CFR § 25.210(i)(1), is moot. This rule was eliminated as part of a recent Commission-level order streamlining Part 25 rules governing satellite communications. *See Comprehensive Review of Licensing and Operating Rules for Satellite Services*, Second Report and Order, 30 FCC Rcd 14713, 14816-17, paras. 331-333 (2015) (*Part 25 Review Second R&O*).
 13. Pursuant to footnote US337 of the United States Table of Frequency Allocations, 47 CFR § 2.106, US337, any earth station in the United States and its possessions communicating with the SES-14 space

authorization. *See Policy Branch Information: Action Taken*, Public Notice, Report No. SAT-01086 (IBFS File No. SAT-LOA-20130722-00097, as amended by IBFS File No. SAT-AMD-20140718-00087 (May 22, 2015).

⁹ SES seeks U.S. Market Access for the 17.3-17.8 GHz band for gate uplinks. SES states that certain SES-14 beams will use the 17.3-18.05 GHz band outside the U.S. for gateways in western Europe and is not seeking access for beams that use the 17.8-18.05 GHz band. *See Letter to Marlene S. Dortch, Secretary, FCC, from Karis A. Hastings, Counsel for SES DTH do Brasil Ltda* (Oct. 21, 2016). No market access in the 17.8-18.05 GHz band is granted

SES DTH do Brasil Ltda
IBFS File No. SAT-PPL-20160918-00093

station in the 13.75-14.0 GHz (Earth-to-space) frequency band is required to coordinate through National Telecommunications and Information Administration (NTIA) Interdepartment Radio Advisory Committee (IRAC) Frequency Assignment Subcommittee (FAS) to minimize interference to the National Aeronautics and Space Administration (NASA) Tracking and Data Relay Satellite System, including manned space flight.

14. Operations of any earth station in the United States and its possessions communicating with the SES-14 space station in the 13.75-14.0 GHz (Earth-to-space) frequency band must comply with footnote US356 to United States Table of Frequency Allocations, 47 CFR § 2.106, US356, which specifies a mandatory minimum antenna diameter of 4.5 meters and recommended minimum and maximum equivalent isotropically radiated powers (EIRP). Operations of any earth station located outside the United States and its possessions communicating with the SES-14 space station in the 13.75-14.0 GHz (Earth-to-space) frequency are subject to No. 5.502 to the ITU Radio Regulations, which allows a minimum antenna diameter of 1.2 meters for earth stations of a geostationary satellite orbit network and specifies mandatory power limits.
15. In the 13.75-14.0 GHz (Earth-to-space) frequency band, receiving space stations in the fixed satellite service must not claim protection from radiolocation transmitting stations operating in accordance with the United States Table of Frequency Allocations, 47 CFR § 2.106.
16. Operations of any earth station in the United States and its possessions communicating with the SES-14 space station in the 13.77-13.78 GHz (Earth-to-space) frequency band must comply with footnote US357 to United States Table of Frequency Allocations, 47 CFR § 2.106, US357, which specifies that the maximum EIRP density of emissions not exceed 71 dBW in any 6 MHz band within the 13.77-13.78 GHz (Earth-to-space) frequency band for communications with a space station in geostationary-satellite orbit.¹⁰ Operations of any earth station located outside the United States and its possessions communicating with the SES-14 space station in the 13.77-13.78 GHz (Earth-to-space) frequency band are subject to No. 5.503 of the ITU Radio Regulations, which specifies a required maximum EIRP density of emissions (limit is dependent on antenna diameter) for communications with a space station in geostationary-satellite orbit.
17. Pursuant to footnote US342 of the United States Table of Frequency Allocations, 47 CFR § 2.106, services operating in the 14.47-14.50 GHz band shall take all practicable steps to protect the radio astronomy service from harmful interference
18. Earth station operators in the United States seeking access to SES-14 for direct-to-home services may do so only after obtaining an earth station license that includes authority to provide direct-to-home services via the SES-14 space station, or after modifying an existing earth station license to include authority to provide direct-to-home services via the SES-14 space station.¹¹
19. The operations of SES-14 to and from the United States and associated earth stations must comport with the applicable uplink and downlink limits in 47 CFR § 25.140(a)(3) of the Commission's rules,

¹⁰ Footnote US357 places a restriction on FSS earth station operations in order to protect government operations in the band, including manned space flight. 47 CFR § 2.106, US357.

¹¹ As part of the changes to the *Part 25 Streamlining Second R&O*, the Commission expanded the definition of the Permitted Space Station List to include all GSO FSS space stations licensed or granted U.S. market access in bands with routine licensing criteria for earth stations. Those bands are the extended and conventional C-bands, the extended and conventional Ku-bands, the conventional Ka-band, and the 24.75-25.25 GHz band. As a result, once the rules are effective, operators of receive-only earth stations will no longer need to apply for a license for the extended C- and Ku-bands. *See Part 25 Second Report and Order*, 30 FCC Rcd at 14794-96, paras. 247-251; *see also* 47 CFR § 25.131(j)(2) (stating, in part, that operators of receive-only earth stations receiving transmissions from non-U.S.-licensed space stations on the Permitted Space Station List do not need to file for a license).

ATTACHMENT TO GRANT
SES DTH do Brasil Ltda
IBFS File No. SAT-PPL-20160918-00093

unless SES coordinates any non-conforming operations with the operations of U.S.-licensed geostationary orbit space stations within 6 degrees of the 47.5° W.L. orbital location. SES must also comport with the maximum power limits indicated in its application. Non-conforming operations must also be coordinated with respect to those operations of non-U.S.-licensed space stations within 6 degrees of 47.5° W.L. involving approved communications with U.S.-licensed earth stations.

20. This grant of market access will terminate in the event that the SES-14 space station is relocated from the 47.5° W.L. orbital location or ceases to operate. In either case, SES-14 will be removed from the Permitted List. If SESs wishes to provide service to the U.S. using another space station, it must file a new application to have that space station placed on the Permitted List.

21. This authorization is subject to the following requirements:

- a. SES must post a surety bond in satisfaction of 47 CFR §§ 25.165(a)(2) & (b) no later than 30 days after grant (March 11, 2017) and thereafter maintain on file a surety bond requiring payment in the event of a default in an amount, at minimum, determined according to the formula set forth in 47 CFR § 25.165(a)(2); and
- b. SES must launch the space station, position it in its assigned orbital location, and operate it in accordance with the station authorization no later than February 9, 2022. 47 CFR § 25.164(a).

This grant of U.S. market access will be null and void automatically, without further Commission action if SES fails to comply with any of these requirements. Failure to comply with the milestone requirement of 47 CFR § 25.164(a) will also result in forfeiture of SES's surety bond. By February 24, 2022, SES must either demonstrate compliance with its milestone requirement or notify the Commission in writing that the requirement was not met. 47 CFR § 25.164(f).

Licensee/grantee is afforded thirty (30) days from the date of release of this action to decline the grant as conditioned. Failure to respond within this period will constitute formal acceptance of the grant as conditioned.

This action is taken pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 CFR § 0.261, and is effective upon release.

Station licenses are subject to the conditions specified in Section 309(h) of the Communications Act of 1934, as amended, 47 U.S.C. § 309(h).

TYPE OF STATION

25. CLASS OF STATION: Choose the button next to the class of station that applies. Choose only one.

(N/A) a. Fixed Earth Station
(N/A) b. Temporary-Fixed Earth Station
(N/A) c. 12/14 GHz VSAT Network
(N/A) d. Mobile Earth Station
 e. Geostationary Space Station.
 f. Non-Geostationary Space Station
 g. Other (please specify)

26. TYPE OF EARTH STATION FACILITY: Not Applicable

PURPOSE OF MODIFICATION

27. The purpose of this proposed modification is to: (Place an "X" in the box(es) next to all that apply.) Not Applicable

ENVIRONMENTAL POLICY

28. Would a Commission grant of any proposal in this application or amendment have a significant environmental impact as defined by 47 CFR 1.1307? If YES, submit the statement as required by Sections 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. §§ 1.1308 and 1.1311, as an exhibit to this application. A Radiation Hazard Study must accompany all applications for new transmitting facilities, major modifications, or major amendments. Yes No

ALIEN OWNERSHIP

Earth station applicants not proposing to provide broadcast, common carrier, aeronautical en route or aeronautical fixed radio station services are not required to respond to Items 30-34.

29. Is the applicant a foreign government or the representative of any foreign government?

Yes No

30. Is the applicant an alien or the representative of an alien?

Yes No N/A

31. Is the applicant a corporation organized under the laws of any foreign government?

Yes No N/A

32. Is the applicant a corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?

Yes No N/A

33. Is the applicant a corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?

Yes No N/A

34. If any answer to questions 29, 30, 31, 32 and/or 33 is Yes, attach as an exhibit an identification of the aliens or foreign entities, their nationality, their relationship to the applicant, and the percentage of stock they own or vote.

BASIC QUALIFICATIONS

35. Does the Applicant request any waivers or exemptions from any of the Commission's Rules?
If Yes, attach as an exhibit, copies of the requests for waivers or exceptions with supporting documents.

Yes No

36. Has the applicant or any party to this application or amendment had any FCC station authorization or license revoked or had any application for an initial, modification or renewal of FCC station authorization, license, or construction permit denied by the Commission? If Yes, attach as an exhibit, an explanation of circumstances.

Yes No

37. Has the applicant, or any party to this application or amendment, or any party directly or indirectly controlling the applicant ever been convicted of a felony by any state or federal court? If Yes, attach as an exhibit, an explanation of circumstances.

Yes No

38. Has any court finally adjudged the applicant, or any person directly or indirectly controlling the applicant, guilty of unlawfully monopolizing or attempting unlawfully to monopolize radio communication, directly or indirectly, through control of manufacture or sale of radio apparatus, exclusive traffic arrangement or any other means or unfair methods of competition? If Yes, attach as an exhibit, an explanation of circumstances

Yes No

39. Is the applicant, or any person directly or indirectly controlling the applicant, currently a party in any pending matter referred to in the preceding two items? If yes, attach as an exhibit, an explanation of the circumstances.

Yes No

40. If the applicant is a corporation and is applying for a space station license, attach as an exhibit the names, address, and citizenship of those stockholders owning a record and/or voting 10 percent or more of the Filer's voting stock and the percentages so held. In the case of fiduciary control, indicate the beneficiary(ies) or class of beneficiaries. Also list the names and addresses of the officers and directors of the Filer. Exhibit A

41. By checking Yes, the undersigned certifies, that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application"; for these purposes. Yes No

42a. Does the applicant intend to use a non-U.S. licensed satellite to provide service in the United States? If Yes, answer 42b and attach an exhibit providing the information specified in 47 C.F.R. 25.137, as appropriate. If No, proceed to question 43. Yes No

42b. What administration has licensed or is in the process of licensing the space station? If no license will be issued, what administration has coordinated or is in the process of coordinating the space station? Brazil

43. Description. (Summarize the nature of the application and the services to be provided). (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)

Petitioner seeks U.S. market access for the Brazilian-licensed SES-14 spacecraft to be located at 47.5 W.L.

Narrative and GIMS

43a. Geographic Service Rule Certification

By selecting A, the undersigned certifies that the applicant is not subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25.

A

By selecting B, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will comply with such requirements.

B

By selecting C, the undersigned certifies that the applicant is subject to the geographic service or geographic coverage requirements specified in 47 C.F.R. Part 25 and will not comply with such requirements because it is not feasible as a technical matter to do so, or that, while technically feasible, such services would require so many compromises in satellite design and operation as to make it economically unreasonable. A narrative description and technical analysis demonstrating this claim are attached.

C

CERTIFICATION

The Applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. The applicant certifies that grant of this application would not cause the applicant to be in violation of the spectrum aggregation limit in 47 CFR Part 20. All statements made in exhibits are a material part hereof and are incorporated herein as if set out in full in this application. The undersigned, individually and for the applicant, hereby certifies that all statements made in this application and in all attached exhibits are true, complete and correct to the best of his or her knowledge and belief, and are made in good faith.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 0.25 – 24 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD–PERM, Paperwork Reduction Project (3060–0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060–0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104–13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.
