Conditions of Authorization
November 4, 2004

1. DIRECTV Enterprises, LLC's ("DIRECTV") application, File No. SAT-RPL-20040630-00127, Call Sign S2632, IS GRANTED.¹ DIRECTV is authorized to construct, launch and operate its DIRECTV 8 direct broadcast satellite ("DBS") (USABSS-19) space station, transmitting and receiving on the 16 odd-numbered channels between 1 and 31 inclusive in the 12.2-12.7 GHz (space-to-Earth) and 17.3-17.8 GHz (Earth-to-space) frequency bands at the 100.85° W.L. orbit location, with ±0.05° longitudinal stationkeeping, in accordance with the terms, representations, and technical specifications set forth in its application, this Attachment, and the Federal Communications Commission's ("Commission") Rules.

2. Pursuant to Section 1.3 of the Commission's rules, 47 C.F.R. § 1.3, DIRECTV IS GRANTED a waiver of Section 25.202(g) of the Commission's rules, 47 C.F.R. § 25.202(g), to use the 14002-14004 MHz and 14496-14498 MHz bands for telecommand operations during transfer orbit for no longer than a 15-day period from the time that DIRECTV 8 is launched until it is established in a geostationary satellite orbit. Grant of this waiver is consistent with previous Commission actions.²

3. DIRECTV shall coordinate the frequency and power usage with all existing satellites in orbit, which use frequencies in the 14002-14004 MHz and 14496-14498 MHz bands, and which could be adversely affected by the TT&C operations of this space station.

4. DIRECTV shall perform no commercial operations of the DIRECTV 8 DBS space station until DIRECTV 8 is established in a geostationary satellite orbit at the 100.85° W.L. orbital location.

5. DIRECTV shall coordinate all transfer orbit Telemetry, Tracking, and Control operations with other potentially affected in-orbit DBS or Fixed- Satellite Service operators.

6. DIRECTV shall provide the Commission with all information it requires in order to modify the Appendix 30 Broadcasting-Satellite Service Plans and associated Appendix 30A feeder-link Plans to incorporate the characteristics of USABSS-19, in accordance with the ITU Radio Regulations. DIRECTV shall be held responsible for all cost recovery fees associated with these ITU filings. We also note that no protection from interference caused by radio stations authorized by other administrations is guaranteed unless coordination and notification procedures are timely completed or, with respect to individual administrations, by successfully completing coordination agreements. Any radio station authorization for which coordination has not been completed and/or for which the necessary agreements under Appendices 30 and 30A have not been obtained may be subject to additional terms and conditions as required to effect coordination or obtain the agreement of other Administrations. *See* 47 C.F.R. § 25.111(c).

¹ DIRECTV 8 will be a hybrid satellite, combining DBS and Ka-band payloads. *See* DIRECTV Enterprises LLC, Application to Launch and Operate the DIRECTV 8 satellite, File No. SAT-MOD-20040630-00128, Call Sign S2132, granted November 4, 2004.

² *See* In the Matter of DIRECTV Enterprises, LLC Application for Authority to Launch and Operate DIRECTV 7S (USABSS-18), *Order and Authorization*, 19 FCC Rcd 7754 (2004).

7. The license term for the DIRECTV 8 DBS space station, Call Sign S2632, is ten years and will begin to run on the date that DIRECTV certifies to the Commission that the space station has been successfully placed into orbit and its operation fully conforms to the terms and conditions of this authorization.

8. This authorization does not in any way constitute an approval of DIRECTV's post-mission disposal plans for the DIRECTV 8 DBS space station.

9. DIRECTV must provide a written statement to the Commission within 60 days of the date of this authorization that identifies any known satellites located at, or planned to be located at, DIRECTV's assigned orbital location for DIRECTV 8, or assigned in the vicinity of that location such that the station-keeping volume of the respective satellites might overlap, and that states the measures that will be taken to prevent in-orbit collisions with such satellites. This statement should address any licensed Commission systems, or any systems applied for and under consideration by the Commission. The statement need not address every filing with the ITU that meets these criteria, but should assess and address any systems reflected in ITU filings that are in operation or that DIRECTV believes may be progressing toward launch, *e.g.* by the appearance of the system on a launch vehicle manifest. If DIRECTV elects to rely on coordination with other operators to prevent in-orbit collisions, it shall provide a statement as to the manner in which such coordination will be effected.

10. DIRECTV is afforded thirty days from the date of release of this grant and authorization to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.

11. This grant is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release. Petitions for reconsideration under Section 1.106 or applications for review under Section 1.115 of the Commission's rules, 47 C.F.R. §§ 1.106, 1.115, may be filed within 30 days of the date of the public notice indicating that this action was taken.
