Re: ORBCOMM License Corp. – Notification of Construction of Satellites at
ORBCOMM's Own Risk

Dear Mr. Nelson:

Enclosed is a letter from ORBCOMM pursuant to Section 25.113(f) notifying the Commission of the commencement of construction of replacement satellites at its own risk. I have also enclosed a "Stamp & Return" copy, and would appreciate it if you could return it in the enclosed envelope acknowledging receipt of this notification.

Please let me know if you have any questions.

Sincerely,

Stephen L. Goodman
Counsel for ORBCOMM

Re: ORBCOMM License Corp. – Notification of Construction of Satellites at
ORBCOMM's Own Risk

Dear Mr. Nelson:

ORBCOMM License Corp. ("ORBCOMM") hereby submits this letter pursuant to Section 25.113(f) of the Commission's Rules, 47 C.F.R. § 25.113(f), notifying the Commission that it has commenced construction of seven additional satellites for its Non-Voice, Non-Geostationary Mobile Satellite Service system (Call Sign S2103). ORBCOMM acknowledges that such construction is at ORBCOMM's own risk. One of the satellites will provide a demonstration of AIS-monitoring capabilities for the United States Coast Guard (as well as the provision of ORBCOMM's messaging services), and six satellites are intended to replenish the ORBCOMM constellation. Although there is some ambiguity as to what constitutes a "technically-identical replacement satellite," out of an abundance of caution ORBCOMM will file a modification application in the near future to cover these satellites.

Please contact the undersigned if you have any questions or need any additional information.

Sincerely,

John J. Stolte
Executive Vice President
Technology & Operations
