PURPOSE OF MODIFICATION

27. The purpose of this proposed modification is to: (Place an "X" in the box(es) next to all that apply.)

- a -- authorization to add new emission designator and related service
 b -- authorization to change emission designator and related service
 c -- authorization to increase EIRP and EIRP density
 d -- authorization to replace antenna
 e -- authorization to add antenna
 f -- authorization to relocate fixed station
 g -- authorization to change assigned frequency(ies)
 h -- authorization to add Points of Communication (satellites & countries)
 i -- authorization to change Points of Communication (satellites & countries)
 j -- authorization for facilities for which environmental assessment and radiation hazard reporting is required
 k -- Other (Please specify) Extend license term

ENVIRONMENTAL POLICY

28. Would a Commission grant of any proposal in this application or amendment have a significant environmental impact as defined by 47 CFR 1.1307? If YES, submit the statement as required by Sections 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. 1.1308 and 1.1311, as an exhibit to this application. A Radiation Hazard Study must accompany all applications for new transmitting facilities, major modifications, or major amendments.

FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

In the Matter of Application of)
)
PANAMSAT CORPORATION) File No.
)
To Modify the License of the SBS-6)
Communications Satellite)
to Extend the License Term)

**APPLICATION FOR LICENSE MODIFICATION OR, IN THE ALTERNATIVE,
REQUEST FOR SPECIAL TEMPORARY AUTHORITY**

PanAmSat Corporation ("PanAmSat") hereby submits this application for modification of the license for its SBS-6, Ku-band fixed-satellite service space station to extend the license term. In the alternative, PanAmSat requests a grant of special temporary authority ("STA") to continue to operate its SBS-6 for a period of 180 days following the expiration of its license term.

The SBS-6 satellite was placed into service on November 1, 1990. Pursuant to Section 25.121(a) & (d)(1) of the Commission's rules, the license term for SBS-6 will therefore expire on November 1, 2000.

Since becoming operational, the SBS-6 satellite has played a vital role in PanAmSat's global satellite fleet. PanAmSat anticipates that SBS-6 will continue to provide service from its assigned location of 74° W.L. for a number of years.

PanAmSat requests that the Commission modify the license for SBS-6 to extend its term of operation at 74° W.L. until the earlier of: (1) five years from the license expiration date; or (2) the date that a replacement for SBS-6 has been successfully placed into orbit and its operations fully conform to the terms and conditions of its space station radio authorization. Grant of this request will serve the public interest by allowing the public to continue receiving services from the SBS-6 satellite. Significantly, grant of this application will not have any adverse effect on other users of the orbital arc.

In the alternative, PanAmSat requests STA for a period of 180 days so that PanAmSat may continue to provide service to customers on the SBS-6 satellite following the expiration of its license. In light of the expected remaining useful life of SBS-6, grant of a modification of the license term would be significantly less

burdensome on the Commission than the issuance of an STA, which would entail the processing of requests every six months to renew or extend the STA.

CONCLUSION

For the foregoing reasons, the Commission should modify the license for PanAmSat's SBS-6 satellite to extend the license term of that satellite or, in the alternative, grant PanAmSat STA to continue to operate SBS-6 for a period of 180 days following the expiration of the satellite's license term.

The undersigned certifies individually and for PanAmSat that the statements made in this application are true, complete, and correct to the best of his knowledge and belief, and are made in good faith. The undersigned also certifies that neither PanAmSat nor any party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-drug Abuse Act of 1988, 21 U.S.C. § 862.

Respectfully submitted,

By:

Kalpak Gude
Vice President & Associate General Counsel
PanAmSat Corporation

Counsel:

Joseph A. Godles, Esq.
GOLDBERG GODLES WIENER & WRIGHT
1229 19th Street, N.W.
Washington, D.C. 20036
(202) 429-4900

September 28, 2000

In response to question 36 of FCC Form 312, PanAmSat Corporation ("PanAmSat") never has had an FCC license "revoked." However, on June 26, 2000, the International Bureau "cancelled" two Ka-band satellite authorizations held by PanAmSat Licensee Corp., a PanAmSat subsidiary, based on its finding that PanAmSat Licensee Corp. had not satisfied applicable construction milestones. See PanAmSat Licensee Corp., File Nos. 198/199-SAT-P/LA-95 *et al.*, Memorandum Opinion and Order (rel. June 26, 2000). In that same order, the Bureau denied related applications to modify the cancelled authorizations. PanAmSat has filed an application for review of the Bureau's decision. Notwithstanding the fact that the Bureau's action does not seem to be the kind of revocation action contemplated by question 36, PanAmSat is herein making note of the decision in the interests of absolute candor and out of an abundance of caution.

In any event, the Bureau's action does not reflect on PanAmSat's basic qualifications to be an FCC licensee, nor does it relate in anyway to the instant application. PanAmSat operates the PanAmSat and Galaxy satellite systems, which are comprised of a number of commercial communications satellites spanning the globe. Using these satellites, PanAmSat and its predecessors have provided a wide variety of reliable satellite services for many years. PanAmSat's qualifications to be an FCC licensee are, therefore, well-established and a matter of public record.

1. Hughes Electronics Corporation ("HE") indirectly owns over 80% of the issued and outstanding stock of PanAmSat Licensee Corp. ("PanAmSat"). HE Holdings, Inc. ("HEH"), a wholly-owned subsidiary of HE formerly known as Hughes Aircraft Company, pled guilty to two felony counts in 1990. The full details of this matter are included in a Form 430 for Hughes Communications Galaxy, Inc., dated August 19, 1991.

On June 15, 1992, HEH was found guilty of one felony count with regard to the testing of microelectronics components. The full details of this matter are included in a Form 430 for Hughes Communications Galaxy, Inc., dated August 12, 1992.

The conduct at issue in these two cases has no relevance to the FCC authorizations and applications of PanAmSat. HEH was merged into the Raytheon Company in 1997 and therefore is no longer affiliated with PanAmSat or any party to this application. HE, moreover, had no ownership interest in the PanAmSat system when the conduct occurred at HEH. In addition, conduct in these matters is wholly unrelated to the communications area and does not reflect in any way upon the FCC-related activity of PanAmSat, whose operations were largely independent of HEH during the period when HEH was a subsidiary of HE.

2. On or about February 1, 2000, EchoStar Communications Corp. and related entities ("EchoStar") filed an action in the District Court for the District of Colorado, naming, among others, DirecTV Enterprises, Inc., DirecTV, Inc., DirecTV Merchandising, Inc., DIRECTV Operations, Inc. ("DirecTV," collectively), Hughes Network Systems (a division of Hughes Electronics Corp.) and another, unrelated entity. DirecTV and Hughes Global Services, Inc. are both indirect, wholly-owned subsidiaries of Hughes Electronics Corporation, which has a beneficial ownership interest in PanAmSat Corporation ("PanAmSat") of approximately 81%. EchoStar's complaint seeks damages and injunctive relief for, among other things, alleged violations of federal and state antitrust laws, including Sections 1 and 2 of the Sherman Act and Section 3 of the Clayton Act on account of DirecTV's alleged anticompetitive activities and/or monopolization of the "High-Power Direct Broadcast Satellite market." On or about March 13, 2000, DirecTV and Hughes Electronics Corp. filed an answer denying EchoStar's allegations of antitrust violations and brought four counter-claims seeking damages on account of EchoStar's tortious business practices. The parties have exchanged the disclosures required by Fed. R. Civ. P. 26 and have engaged in initial document and written discovery. PanAmSat has been
