Re: *Sirius Satellite Radio Request for STA*, File No. SAT-STA-20010712-00064  
Reply to Opposition to Application for Review

Dear Ms. Salas:

On November 13, 2001, AT&T Wireless Services, Inc. ("AWS") filed its Reply to Opposition to Application for Review in this file. In accord with Section 1.115 of the Commission's rules, AWS served its Reply, as it served its original Application for Review, upon both the person opposing the Application (Sirius Satellite Radio), as well as parties to the proceeding.

With the Reply, AWS included an abbreviated certificate of service certifying service to the opposing party. Enclosed herewith is the full certificate of service, created and executed at the time of the filing, indicating all parties served. The original certificate of service for the Application for Review is also attached. The Application was filed on October 17, 2001, in the midst of the unplanned change in filing procedures at the Commission, and the certificate of service was inadvertently excluded. Section 1.47 of the Commission's rules provides that proof of service may be supplied at any time and does not affect the validity of the service.

November 15, 2001
