**Re: Operation of Terrestrial Repeater in Jackson, Mississippi; Sirius Satellite Radio, Inc. Application for Special Temporary Authority to Operate Satellite Digital Audio Radio Service Complementary Terrestrial Repeaters, File No. SAT-STA-20010724-00064**

Dear Mr. Caton:

By its attorneys, Sirius Satellite Radio Inc. ("Sirius") hereby updates certain information provided to the Commission in a letter dated February 22, 2002, which notified the FCC of Sirius' plans to install and operate a very low power terrestrial repeater in Jackson, Mississippi. In that letter, Sirius informed the FCC that it had contacted each entity holding a WCS, MDS or ITFS license covering Jackson to notify them of its plans to install and operate a low power repeater in that city. Sirius also noted that it had not received a substantive response to this notification from, among others, Kannew Broadcast Technologies ("Kannew"). Sirius writes to advise the Commission that Kannew since has notified Sirius that it has no objections to its operation of the Jackson repeater pursuant to its special temporary authority ("STA") to operate a satellite DARS terrestrial repeater network.

If there are any questions about this submission, please contact the undersigned at 202.719.7269.

Sincerely,

Carl R. Frank

Counsel for Sirius Satellite Radio Inc.
