**Re: Request to Modify Special Temporary Authority to Operate Satellite
DARS Terrestrial Repeaters (filed June 14, 2002)**

Dear Ms. Dortch:

On June 14, 2002, Sirius Satellite Radio Inc. ("Sirius") filed a request to modify its special temporary authority ("STA") to operate satellite digital audio radio service terrestrial repeaters. Subsequently, on August 12, 2002, International Bureau staff informed Sirius that its request to modify its STA should have been submitted as a fee filing and requested that Sirius resubmit the request along with an FCC Form 159 and the appropriate filing fee. Sirius hereby resubmits its June 14, 2002 request along with an FCC Form 159 and a check in the amount of \$2305.00, made payable to the FCC, to cover the requisite filing fee.

If there are any questions about this submission, please contact the undersigned.

Sincerely,

Heather O. Dixon

Re: Request to Modify Special Temporary Authority to Operate Satellite DARS Terrestrial Repeaters; Sirius Satellite Radio, Inc. Application for Special Temporary Authority to Operate Satellite Digital Audio Radio Service Complementary Terrestrial Repeaters, File No. SAT-STA-, 20010724-00064

Dear Ms. Dortch:

Sirius Satellite Radio Inc. ("Sirius") hereby requests that the Commission modify its special temporary authority ("STA") to operate certain of its satellite DARS terrestrial repeaters with Equivalent Isotropically Radiated Powers ("EIRPs") greater than 2kW.

On July 24, 2001, Sirius requested STA to begin commercial service using its satellite DARS terrestrial repeater network. This request included an Exhibit providing technical information—such as, geographic coordinates, total EIRP, antenna orientation, antenna radiation pattern and any applicable vertical downtilt—for each planned terrestrial repeater with an EIRP greater than 2kW. On September 17, 2001, the Commission granted Sirius STA to operate its satellite DARS terrestrial repeater network.¹ The Commission granted Sirius STA to operate its terrestrial repeaters with EIRPs greater than 2kW "as specified in Exhibit A of the STA request."²
