**RE: Galaxy 14, Call sign S2385
File No. SAT-STA-20050207-00026
Notification of Completed Testing
and Commencement of Relocation**

Dear Ms. Dortch:

On February 14, 2005, PanAmSat Licensee Corp. ("PanAmSat") was granted special temporary authority to locate Galaxy 14 temporarily at 146° W.L. for purposes of conducting in-orbit testing ("IOT").¹ As a condition of that grant, PanAmSat was required to notify the Commission once IOT had been completed and Galaxy 14 had commenced relocation to its assigned orbital location. PanAmSat hereby informs the Commission that IOT has been completed and the satellite commenced its relocation from 146° W.L. on November 10, 2005.²

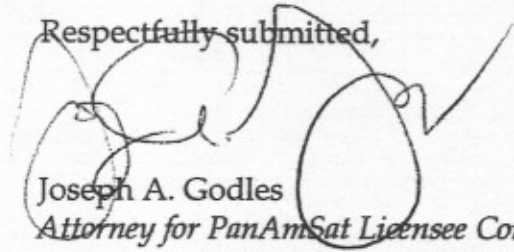

¹ See File No. SAT-STA-20050207-00026. PanAmSat subsequently requested two extensions of its authority for locating Galaxy 14 at 146° W.L.

² As a result of an administrative oversight, this notification is being filed one day beyond the seven-day period specified in the condition.

Ms. Marlene Dortch

Questions with respect to this matter should be directed to Joseph A. Godles,
PanAmSat's counsel, at (202) 429-4900.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "J. Godles", is written over the typed name and title.

Joseph A. Godles
Attorney for PanAmSat Licensee Corp.
