Re: **EchoStar Satellite L.L.C. -- File No. SAT-STA-20050701-00142 (granted July 6, 2005)**

Dear Ms. Dortch,

As required by condition 16 of the above-referenced Special Temporary Authority, please find attached an original and four copies of "materials for submission to the International Telecommunication Union, pursuant to Article 8.4 of the Radio Regulations, in connection with the operations of the EchoStar spacecraft at the 77° W.L. orbital location." See Stamp Grant at Condition 16, SAT-STA-20050701-00142 (granted July 6, 2005).

If you have any questions about this filing, please do not hesitate to contact me.

Your sincerely,

Daniel C.H. Mah
Counsel for EchoStar Satellite L.L.C.

Chip Fleming, International Bureau

The Administration of the United States of America would like to inform the ITU that a U.S. licensed satellite, EchoStar-4, has been authorized to provide services in the 12.2 – 12.7/17.3 – 17.8 GHz bands from the 77W.L. geostationary orbit location.

The satellite will be operated in accordance with the Table of Frequency Allocations of the Radio Regulations.

EchoStar has demonstrated that the intended operations will not cause potential excess interference to other adjacent operating satellite systems. However, these operations have been authorized only pursuant to ITU Radio Regulations 4.4.

This information is being submitted for its possible relevance to the provisions of Article 8 of the Radio Regulations.
