Conditions of Authorization
IBFS File No. SAT-STA-20060125-00009
February 17, 2006

PanAmSat Licensee Corp.'s (PanAmSat's) application for Special Temporary Authority, SAT-STA-20060125-00009 (Call Sign S2460), IS GRANTED. Accordingly, PanAmSat is authorized for the period of 30 days commencing on February 17, 2006, to re-point the Southeast Asia downlink beam to New Zealand on its PAS-5 satellite at the 166° E.L. orbit location in the 12.25-12.75 GHz (space-to-Earth) frequency band. Other than re-pointing the Southeast Asia downlink beam, the conditions contained in the prior authorization¹ remain in effect and the PAS-5 satellite will operate in accordance with the terms, conditions, and technical specifications set forth in its application, this Attachment, and the Federal Communications Commission's Rules.

1. PanAmSat shall coordinate its operations in the 12.25-12.75 GHz frequency band so that no harmful interference shall be caused to any other lawfully operating satellite or radiocommunication system. PanAmSat shall cease operations immediately upon notification of such interference and inform the Commission in writing immediately of such an event. In the 12.25-12.75 GHz frequency band, PanAmSat is required to accept interference from other lawfully operating space stations or radio communications systems.
2. PanAmSat is required to obtain all necessary authorizations from each country in which it seeks to provide service before beginning service to that country.
3. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.
