Conditions
IBFS File Nos. SAT-STA-20060202-00013
February 17, 2006

PanAmSat Licensee Corp.'s (PanAmSat's) request for special temporary authority, SAT-STA-20060202-00013, IS GRANTED. Accordingly, PanAmSat is authorized for 30 days to continue to operate the tracking, telemetry, and command ("TT&C") payload on Galaxy 3R (Call Sign: E GAL-3R) for purposes of tracking and performing end of life maneuvers¹ to boost the Galaxy 3R satellite to a disposal orbit above the geostationary arc, in accordance with the terms, conditions, and technical specifications set forth in its application and this attachment.

1. PanAmSat shall coordinate all orbit raising maneuver TT&C operations with existing geostationary satellites to ensure that no unacceptable interference results from its TT&C operations during its disposal operations. In particular, PanAmSat shall not conduct TT&C operations within two degrees of an existing geostationary satellite operating in the Ku-band, absent successful coordination of such operations with the affected satellite operator.
2. During the disposal operations, no harmful interference shall be caused by Galaxy 3R to any other lawfully operating space station or radio communications system and operations of the Galaxy 3R satellite shall cease immediately upon notification of such interference.
3. PanAmSat is required to accept interference from other lawfully operating space stations or radio communications systems.
4. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely at PanAmSat's own risk.
5. Within thirty days of completion of the end of life maneuvers, PanAmSat shall provide the Commission in writing with the apogee and perigee of Galaxy 3R's disposal orbit.
6. PanAmSat is afforded thirty days from the date of release of this action to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.
7. This Grant is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

¹ On January 23, 2006, PanAmSat was granted a 30 day STA to operate the TT&C payload on Galaxy 3R during disposal orbit maneuvers. IBFS File No. SAT-STA-20060123-00008.
