**Re: Sirius XM Radio Inc.
Renewal of Special Temporary Authority to Operate Terrestrial
Repeaters
File No. SAT-STA-20061013-00122**

Dear Ms. Dortch:

Pursuant to Section 25.120 of the Commission's Rules,¹ Sirius XM Radio Inc. ("Sirius") hereby requests renewal of the above-referenced Special Temporary Authority ("STA") granted in FCC File No. SAT-STA-20061013-00122, so the repeaters covered by that STA may continue to operate at the parameters authorized therein. Absent renewal, this STA is scheduled to expire on September 5, 2008. Sirius requests that the Commission renew this STA until the Commission acts on the pending request for 180 day STA (FCC File Number SAT-STA-20061013-00121), or until the Commission issues a blanket license for satellite radio terrestrial repeaters, whichever occurs first. Because this request is timely, pursuant to Section 1.62 of the Rules, this STA will continue in effect without further action by the Commission until such time as the Commission makes a final determination with respect to this request.²

Sirius currently operates these repeaters in their licensed frequency band (2332.5-2345 MHz) pursuant to the STA granted by the International Bureau on August 6, 2008. Sirius has not changed technical parameters for these repeaters since the grant of the STA and is not herein requesting modification of any of those parameters.

Renewing this STA will serve the public interest by allowing Sirius to continue to provide a clear signal to its subscribers in the areas served by these repeaters.

¹ See 47 C.F. R. § 25.120.

² See 47 C.F.R. § 1.62.

As disclosed in the application for this STA, Sirius has been operating the repeaters authorized under this STA at the parameters requested therein and Sirius is not aware of any incidents where these repeaters have caused any interference to other radio services.

Sirius will continue to comply with the conditions the Commission imposed in granting the above-referenced STA, which provide sufficient protection to other radio services. Therefore, prompt grant of Sirius's renewal request will allow for the continued reception of satellite radio programming over these repeaters by XM subscribers across the country.

Please direct any questions regarding this matter to the undersigned.

Very truly yours,
