mail to Andrea: Echo 5 TT&C

frequencies for Echo 5 during relocation and for on-station operations:

nd: 17301.0 MHz

12201 MHz

12202 MHz

ve noticed a slight discrepancy between the telecommand frequencies listed in the Echo 5 technical annex
l the Schedule S (17301.0 MHz) submitted as part of the A/O application. We confirm that 17301.0 MHz is the
nd frequency, and will file a letter clarifying this later today.

call me if you have any questions.
