File No. SAT-STA-20081215-00231

Dear Ms. Dortch:

On February 24, 2009, Donna Bethea-Murphy of Iridium Satellite LLC (“Iridium”) and R. Michael Senkowski, Thomas S. Dombrowsky, and the undersigned of Wiley Rein LLP met with John Giusti, Rod Porter, Howard Griboff, Fern Jarmulnek, Karl Kensinger, Arthur Lechtman, Paul Locke, Robert Nelson, Sean O’More, and Mark Young of the International Bureau. In this meeting, we discussed Globalstar Licensee LLC’s (“Globalstar”) pending request for waiver and special temporary authority to allow its operations in the spectrum that has been reassigned to Iridium to continue and expand indefinitely. Iridium expressed its concern that, despite direction from the FCC to cease operations, Globalstar continues to operate in violation of its license. Iridium also discussed the other issues raised in its Petition to Deny and Reply to Globalstar’s Waiver Request. Please contact the undersigned with any questions.

Sincerely,

/s/ Peter D. Shields

Peter D. Shields
