Subject: IOT STA request for Telstar 11N (File No. SAT-STA-20090204-00016)

Here are the answers to the questions you posed:

1. Has coordination with Intelsat, SES New Skies, and Hispasat been completed?

A. Yes

2. Describe use of CW carriers. Will they be used for some frequencies or all frequencies?

A. All tests will employ CW carriers. Some tests will be conducted at fixed frequencies and others will employ swept frequencies within the bandwidth of individual transponders. All CW tests will be performed within the parameters coordinated with the neighbors.

3. Does Skynet Satellite Corporation still seek authority to commence IOT on March 6?

A. Yes.

4. Will IOT power exceed the EIRP levels authorized by the space station license?

A. No.

5. Is operation with CW carriers the only deviation from the space station license?

A. Yes.

6. Is the teleport telephone number identified in the STA request answered 24X7?

A. Yes
