Re: Request for Extension of Special Temporary Authority to Continue
Operating the Intelsat 702 Satellite, Call Sign S2388

Dear Ms. Dortch:

Intelsat North America LLC ("Intelsat"), pursuant to Section 25.120 of the rules of the Federal Communications Commission ("FCC" or "Commission"),¹ herein requests a two-week extension – through April 21, 2009 – of the Special Temporary Authority ("STA") previously granted to Intelsat to continue operating the Intelsat 702 satellite (Call Sign S2388) at its current location of 54.85° E.L.² Intelsat currently is drifting Intelsat 706 (Call Sign S2401) to 54.85° E.L.³ Once traffic has been transferred from Intelsat 702 to Intelsat 706, and following grant of a pending application for authority, Intelsat plans to relocate Intelsat 702 to 66.0° E.L. in April 2009.⁴ The scheduled start-of-drift date for Intelsat 702 currently is April 15, 2009.

Grant of this STA extension is in the public interest. This STA extension will ensure continuity of service to Intelsat's customers in the Indian Ocean Region pending regulatory approval and completion of redeployment maneuvers. During this temporary period, Intelsat agrees to comply with the existing conditions of its authorization to operate Intelsat 702 at 54.85° E.L. Moreover, grant of this temporary request will not result in increased risk of harmful interference because Intelsat 702's operations at 54.85° E.L. are already on a non-harmful interference basis. Intelsat will also continue to operate in

¹ 47 C.F.R. § 25.120.

accordance with India's existing coordination agreements regarding the nominal 55° E.L. location.

For the reasons set forth herein, Intelsat respectfully requests that the Commission expeditiously grant this request for a two-week extension of special temporary authority to continue to operate the Intelsat 702 satellite at 54.85° E.L.

Sincerely,
