Re: Intelsat 4 De-orbit
Call Sign: S2461

Dear Ms. Dortch:

PanAmSat Licensee Corp. ("PanAmSat") hereby notifies the Commission that it has successfully de-orbited its Intelsat 4 satellite. The de-orbiting was completed on March 3, 2010. The final measured orbit of the Intelsat 4 satellite is 914.5 km above the geostationary arc, with an apogee and perigee of 997 km and 832 km above the arc, respectively. In the course of de-orbiting the satellite, PanAmSat depleted the propellant tanks, discharged the batteries, disconnected the power from the bus, and shut off the transmitters.

Please do not hesitate to contact the undersigned should you have any questions.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Susan H. Crandall".

Susan H. Crandall
Assistant General Counsel
Intelsat Corporation
