Re: Request for Further Extension of Special Temporary Authority for
Intelsat 3R
Call Sign: PAS-2R

Dear Ms. Dortch:

PanAmSat Licensee Corp. ("PanAmSat") herein requests an additional 30-day extension – through April 26, 2010 – of the Special Temporary Authority ("STA")¹ previously granted PanAmSat to drift Intelsat 3R from 43.0° W.L. to 43.1° W.L., and to operate the satellite temporarily at 43.1° W.L. in the conventional C- and Ku-bands.² Intelsat 3R currently is operating at 43.1° W.L.

PanAmSat relocated Intelsat 3R to 43.1° W.L. under a 180-day because at the time that STA request was filed – January 2009 – the estimated fuel on the satellite resulted in a planned de-orbit date in early-to-mid 2010. Since then, PanAmSat has extended the satellite's estimated End of Maneuver Life date to July 2011 after an annual fuel usage evaluation. Given this new information, PanAmSat initially planned to seek permanent authority for the satellite to operate at 43.1° W.L. Currently, however, PanAmSat is evaluating a potential redeployment of the satellite. As such, it is seeking this STA further extension until a decision is made regarding the satellite's possible redeployment.

Grant of this STA further extension request is in the public interest because it will allow PanAmSat to continue operating Intelsat 3R at 43.1° W.L., thereby ensuring continuity of service for the customers on the satellite.

¹ PanAmSat has filed this STA request, an FCC Form 159 and a \$830.00 filing fee electronically via the International Bureau's Filing System.

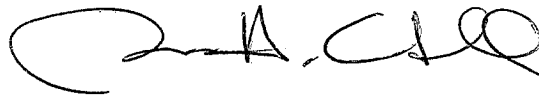

² See *Policy Branch Information; Actions Taken*, Report No. SAT-00619, File No. SAT-STA-20090129-00012 (July 24, 2009) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00663, File No. SAT-STA-20100122-00016 (Jan. 29, 2010) (Public Notice). PanAmSat's last extension request is pending. See *PanAmSat Licensee Corp. Request for Further Extension of Special Temporary Authority for Intelsat 3R*, File No. SAT-STA-20100218-00030 (filed Feb. 18, 2010).

Ms. Marlene H. Dortch

Page 2

Grant of this STA further extension request will not result in increased risk of harmful interference. PanAmSat will continue to operate the Intelsat 3R satellite at 43.1° W.L. in conformance with PanAmSat's coordination agreements related to the nominal 43.0° W.L. location, as well as with the FCC's rules designed to allow co-frequency, co-coverage operations in a two-degree spaced environment.

For the reasons set forth herein, PanAmSat respectfully requests that the Commission grant this STA further extension request.

Sincerely,

A handwritten signature in black ink, appearing to read "S. H. Crandall". The signature is fluid and cursive, with a large initial "S" and "C".

Susan H. Crandall
Assistant General Counsel
Intelsat Corporation
