Re: ***Request for Special Temporary Authority for In Orbit Testing of DIRECTV 10 to 102.6° W.L.***

Dear Ms. Dortch:

On May 25, 2010, DIRECTV Enterprises, LLC (“DIRECTV”) filed a request for Special Temporary Authority (“STA”) to repeat an abbreviated set of in-orbit tests on the DIRECTV 10 satellite (call sign S2641) at the 102.6° W.L. orbital location.¹ This letter is to confirm that DIRECTV has now completed coordination with the licensee of AMC-15, the only non-DIRECTV owned co-frequency satellite operating within $\pm 6^\circ$ of the 102.6° W.L. orbital location, as well as all operators using that satellite in the affected frequency bands.

Respectfully submitted,

/s/

William M. Wiltshire
Counsel to DIRECTV Enterprises, LLC
