Re: EchoStar Satellite Operating Corporation, File No. SAT-STA-20130502-00065

Dear Ms. Dortch:

EchoStar Satellite Operating Corporation (“EchoStar”) files this letter to incorporate by reference the technical parameters of EchoStar 15’s proposed operations at 45.1° W.L., as set forth in its recently filed application for modification,¹ into the above-referenced request for special temporary authority (“STA”).

In addition, EchoStar notes that it will provide telemetry, tracking, and control for EchoStar 15’s relocation to the 45° W.L. orbital cluster using the frequencies previously authorized by the Commission for the five earth stations that will be involved in the relocation of EchoStar 15 to 45.1° W.L. (Call Signs E070014, E080007, E980005, E020248, and E080120).² No other frequencies or earth stations will be used for the relocation.

Sincerely,

/s/

Stephanie A. Roy
Counsel for EchoStar Satellite Operating Corporation

¹ File No. SAT-MOD-20130503-00066 (filed May 3, 2013).

² See Call Sign E070014, File No. SES-MFS-20120815-00748 (granted Feb. 27, 2013); Call Sign E080007, File Nos.
