Attention:	Susan H. Crandall		

Intelsat License LLC
IBFS File No. SAT-STA-20131017-00121
Call Sign S2388

The application of Intelsat License LLC (Intelsat) for special temporary authority, IBFS File No. SAT-STA-20131017-00121, IS GRANTED. Specifically, Intelsat is authorized, for a period of 60 days, commencing on October 15, 2013, to continue to conduct telemetry, tracking, and command operations necessary to maintain the Intelsat 702 space station (Call Sign S2388) at the 33.0° E.L. orbital location, using the 3947.5 MHz, 3948.0 MHz, 3952.5 MHz and 3952.0 MHz (space-to-Earth), and 6173.7 MHz and 6176.3 MHz (Earth-to-space) frequencies. Intelsat is also authorized, on a temporary basis, to provide Fixed-Satellite Service (FSS) via Intelsat 702 in inclined orbit mode at the 33.0° E.L. orbital location in the 3700-4200 MHz (space-to-Earth), 5925-6425 MHz (Earth-to-space), 10.95-11.2 GHz (space-to-Earth), 11.45-11.70 GHz (space-to-Earth), 12.5-12.75 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands.¹ Operations under this authorization must be in accordance with the terms and conditions contained in Intelsat's application, the Federal Communications Commission's rules not waived herein, and are subject to the following conditions:

1. All operations under this grant of special temporary authority must be on an unprotected and non-harmful interference basis, *i.e.*, Intelsat must not cause harmful interference to, and must not claim protection from interference caused to it by, any other lawfully operating radiocommunication system. In the event of any harmful interference as a result of the operations under this grant of special temporary authority, Intelsat must cease operations immediately upon notification of such interference and must immediately inform the Commission, in writing, of such an event.
2. Intelsat must maintain full operational control of the Intelsat 702 space station at all times.
3. While at the 33.0° E.L. orbital location, Intelsat must maintain the Intelsat 702 space station with an east/west longitudinal station-keeping tolerance of +/- 0.05 degrees.
4. In connection with the provision of service in any particular country, Intelsat is obliged to comply with the applicable laws, regulations, rules, and licensing procedures of that country.
5. Intelsat must coordinate the operations of Intelsat 702 with existing geostationary space stations to ensure that no unacceptable interference results from its operations at the 33.0° E.L. orbital location.
6. Intelsat must operate Intelsat 702 at the 33.0° E.L. orbital location in accordance with any existing coordination agreements for this location.
7. Intelsat's use of the 10.95-11.2 GHz and 11.45-11.7 GHz bands is subject to footnote US211 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US211, which urges applicants for airborne or space station assignments to take all practicable steps to protect radio astronomy observations in the adjacent bands from harmful interference, consistent with footnote US74.
8. Intelsat's operation of the Intelsat 702 space station in the 10.95-11.2 GHz and 11.45-11.7 GHz bands is limited to international operations in accordance with footnote NG 104

¹ Intelsat indicates that although Intelsat 702 is also capable of operating in the 11.7-11.95 GHz band, Intelsat does not plan to operate Intelsat 702 in this band at the 33.0° E.L. orbital location.

Intelsat License LLC
IBFS File No. SAT-STA-20131017-00121
Call Sign S2388

to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, NG 104, and footnote 2 of Section 25.202(a)(1) of the Commission's rules, 47 C.F.R. § 25.202(a)(1).

9. Use of the 12.50-12.70 GHz frequency band is not authorized in International Telecommunication Union (ITU) Region 2.

10. Use of the 12.70-12.75 GHz frequency band is not authorized for FSS in the space-to-Earth direction in ITU Region 2.

11. Any action taken or expense incurred as a result of operations pursuant to this grant of special temporary authority is at Intelsat's own risk.

12. Grant of this authorization is without prejudice to any determination that the Commission may make regarding Intelsat's pending application to operate Intelsat 702 at the 33.0° E.L. orbital location (IBFS File No. SAT-MOD-20121001-00163).

13. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

Re: Request for Further Extension of Special Temporary
Authority to Drift and Operate Intelsat 702
Call Sign S2388

Dear Ms. Dortch:

Intelsat License LLC ("Intelsat") herein requests a 60-day further extension -- from October 15, 2013 through December 12, 2013 -- of the Special Temporary Authority ("STA")¹ previously granted Intelsat to drift Intelsat 702 (call sign S2388) from 47.5° E.L. to 33.0° E.L. and to operate it at that location in inclined orbit in the C- and Ku-bands.² Intelsat has a pending application for modification of the Intelsat 702 license to allow for the satellite's permanent operation at 33.0° E.L.³

¹ Intelsat has filed this STA request, an FCC Form 159 and an \$860.00 filing fee electronically via the International Bureau's Filing System.

² See *Policy Branch Information; Actions Taken*, Report No. SAT-00972, File Nos. SAT-STA-20130808-00104 and SAT-STA-20130607-00080 (Sept. 13, 2013) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00945, File No. SAT-STA-20130410-00058 (Apr. 26, 2013) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00935, File No. SAT-STA-20130212-00021 (Mar. 8, 2013) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00921, File No. SAT-STA-20121211-00215 (Dec. 21, 2012) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00905, File No. SAT-STA-20121001-00164 (Oct. 19, 2012) (Public Notice).

³ See *Policy Branch Information; Satellite Space Applications Accepted for Filing*, Report No. SAT-00910, File No. SAT-MOD-20121001-00163 (Nov. 9, 2012) (Public Notice).

Ms. Marlene H. Dortch
October 17, 2013
Page 2

Intelsat 702 currently is operating at 33.0° E.L. It is collocated with Intelsat 28 (f/k/a Intelsat New Dawn; call sign S2751), which currently operates at 32.8° E.L.⁴

The Intelsat 702 TT&C frequencies are as follows:

Uplink:

6173.7 MHz and 6176.3 (LHCP)

Downlink:

3947.5 MHz and 3948.0 MHz (RHCP)

3952.5 MHz and 3952.0 MHz (RHCP)

The Intelsat 702 communications frequencies are as follows:

Uplink:

5925-6425 MHz

14000-14500 MHz

Downlink:

3700-4200 MHz

10950-11200 MHz

11450-11700 MHz

12500-12750 MHz⁵

Grant of this STA further extension request is in the public interest because it will allow Intelsat to continue serving customers from the 33.0° E.L. orbital location while the Commission processes the application for permanent authority.

⁴ See *Policy Branch Information; Actions Taken*, Report No. SAT-00972, File No. SAT-STA-20130808-00104 (Sept. 13, 2013) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-00769, File No. SAT-MOD-20101029-00228 (Apr. 1, 2011) (Public Notice).

⁵ Although Intelsat 702 also has the capability to transmit in the frequency band 11.7-11.95 GHz, Intelsat does not intend to utilize this frequency band from the 33.0° E.L. orbital location.

Ms. Marlene H. Dortch
October 17, 2013
Page 3

Grant of this STA further extension request will not result in increased risk of harmful interference. While on-station at 33.0° E.L., Intelsat will continue to operate the communications payload in conformance with Intelsat's coordination agreements related to that location and the FCC's rules governing operations at the location vis-à-vis adjacent locations.

Intelsat has assessed and limited the probability of the space station becoming a source of debris as a result of collision with large debris or other operational space stations. With the exception of Intelsat 28, Intelsat 702 will not be located at the same orbital location as another satellite or at an orbital location that has an overlapping station-keeping volume with another satellite. Further, Intelsat is not aware of any other FCC licensed system, or any other system applied for and under consideration by the FCC, having an overlapping station-keeping volume with Intelsat 702 at 33.0° E.L. Finally, Intelsat is not aware of any system with an overlapping station-keeping volume with Intelsat 702 at 33.0° E.L. that is the subject of an ITU filing and that is either in orbit or progressing towards launch.

For the reasons set forth herein, Intelsat respectfully requests that the Commission expeditiously grant this further extension request.

Sincerely,

Susan H. Crandall
Assistant General Counsel
Intelsat Corporation
