

DECLARATION

I, Thomas E. Sharon, declare under penalty of perjury that the following facts are true and accurate to the best of my knowledge, information, and belief:

1. I am the Chief Operating Officer of Spectrum Five LLC.
2. I have over 30 years experience in the operation of space satellites.
3. I requested that SAT Corporation, pursuant to its contract with Spectrum Five, provide me with the power profile of EchoStar 6 as received from a monitoring station in Woodbine, MD. Attached as Exhibit A is a graphical depiction of the power profile measured at that station on February 10, 2014. The graph depicts the entire KuDBS band (12.2-12.7 GHz). The graph shows that no signal was received for any 24 MHz band, meaning that no transponders were active.

Executed on October 6, 2014:

Thomas E. Sharon, Ph.D.
Chief Operating Officer
Spectrum Five, LLC
