Intelsat License LLC
IBFS File No. SAT-STA-20140917-00101
Call Sign S2401

The application of Intelsat License LLC (Intelsat) for special temporary authority, IBFS File No. SAT-STA-20140917-00101 is GRANTED.¹ Specifically, Intelsat is authorized, for a period of 30 days, commencing on September 21, 2014, to continue to perform telemetry, tracking, and command operations necessary to maintain Intelsat 706 at the 156.9° E.L. orbital location, using the following frequencies: 6173.7 MHz and 6176.3 MHz (Earth-to-space); 3947.5 MHz, 3948.0 MHz, 3952.5 MHz, and 3952.0 MHz (space-to-Earth). Intelsat is also authorized to operate Intelsat 706 at the 156.9° E.L. orbital location in inclined orbit mode to provide Fixed-Satellite Service (FSS) in the 3700–4200 MHz (space-to-Earth), 5925–6425 MHz (Earth-to-space), 10.95–11.2 GHz, 11.45–11.7 GHz, and 12.5–12.75 GHz (space-to-Earth), and 14.0–14.5 GHz (Earth-to-space) frequency bands.² Operations under this authorization must be in accordance with the terms and conditions contained in Intelsat's application and the Federal Communications Commission's rules not waived herein, and are subject to the following conditions:

1. All operations under this grant of special temporary authority must be on an unprotected and non-harmful interference basis, *i.e.*, Intelsat must not cause harmful interference to, and must not claim protection from interference caused to it by, any other lawfully operating radiocommunication system.
2. In the event of any harmful interference as a result of the operations under this grant of special temporary authority, Intelsat must cease operations immediately upon notification of such interference and must immediately inform the Commission, in writing, of such an event.
3. In connection with the provision of service in any particular country, Intelsat is obliged to comply with the applicable laws, regulations, rules, and licensing procedures of that country.
4. Intelsat must operate Intelsat 706 at the 156.9° E.L. orbital location in compliance with all existing or future coordination agreements for this location.
5. While at the 156.9° E.L. orbital location, Intelsat must maintain the Intelsat 706 space station with an east/west longitudinal station-keeping tolerance of +/- 0.05 degrees.
6. Intelsat's use of the 10.95-11.2 GHz and 11.45-11.7 GHz bands is subject to footnote US211 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, US211, which urges applicants for airborne or space station assignments to take all practicable steps to protect radio astronomy observations in the adjacent bands from harmful interference, consistent with footnote US74.
7. Intelsat's operation of the Intelsat 706 space station in the 10.95-11.2 GHz and 11.45-11.7 GHz bands is limited to international operations in accordance with footnote NG 52 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, NG 52.
8. Intelsat 706 is not authorized to provide FSS in the 12.5-12.70 GHz frequency band in International Telecommunication Union (ITU) Region 2.

¹ We also grant Intelsat's request that the Part 25 technical waivers granted to the Intelsat 706 space station in its original license, Sections 25.202(g), 25.210(a)(1), 25.210(a)(3), 25.210(i) and 25.211(a) of the Commission's rules, 47 C.F.R. §§ 25.202(g), 25.210(a)(1), 25.210(a)(3), 25.210(i) and 25.211(a), continue to apply to the Intelsat 706 space station at the 156.9° E.L. orbital location. *See Applications of Intelsat LLC For Authority to Operate, and to Further Construct, Launch and Operate C-Band and Ku-Band Global Satellites That Form a Global Communications System in Geostationary Orbit*, 15 FCC Rcd 15460, Appendix C (2000) (*Memorandum Opinion and Order and Authorization*), *recon. denied*, 15 FCC Rcd 24234 (*Order on Reconsideration*).

² Although Intelsat 706 has the capability to transmit in the 11.7–11.95 GHz band, it does not seek authority to use these frequencies on Intelsat 706 at the 156.9° E.L. orbital location, thus we do not authorize Intelsat to use the 11.7–11.95 GHz band frequencies at 156.9° E.L.

Intelsat License LLC
IBFS File No. SAT-STA-20140917-00101
Call Sign S2401

9. Intelsat 706 is not authorized to provide FSS in the 12.70-12.75 GHz frequency band in the space-to-Earth direction in ITU Region 2.

10. Intelsat must comply with the power levels specified in Section 25.212, 47 C.F.R. § 25.212, unless it coordinates any operations using power levels exceeding the levels in Section 25.212 with all potentially affected adjacent satellites within 6 degrees orbital separation of the 156.9° E.L. orbital location. Intelsat must inform the Commission of the power levels it has coordinated. In addition, Intelsat must inform all affected earth station operators that Section 25.220 of the Commission's rules applies to operations that exceed the power levels specified in Section 25.212. Regardless of Intelsat's coordination agreements, in no event shall: (1) the uplink power density of the Intelsat 706 digital carriers operating in the 5925-6425 MHz and 14.0-14.5 GHz bands exceed -38.7 dBW/Hz and -45 dBW/Hz, respectively; (2) the downlink EIRP density of the Intelsat 706 digital carriers operating in the 3700-4200 MHz band exceed -32 dBW/Hz; (3) the downlink EIRP density of the Intelsat 706 digital carriers operating in the 10.95-11.2 GHz, 11.45-11.7 GHz, and 12.5-12.75 GHz bands exceed -20 dBW/Hz.

11. Intelsat's operation of Intelsat 706 at the 156.9° E.L. orbital location in the C-band frequencies of 3700-4200 MHz (space-to-Earth), and 5925-6425 MHz (Earth-to-space); and the Ku- and extended Ku-band frequencies of 10.95-11.2 GHz (space-to-Earth), 11.45-11.70 GHz (space-to-Earth), 12.5-12.75 GHz (space-to-Earth) and 14.0-14.5 GHz (Earth-to-space); is subject to the following conditions:

(a) Intelsat shall remain a signatory to the Public Services Agreement between Intelsat and the International Telecommunications Satellite Organization (ITSO) that was approved by the ITSO Twenty-fifth Assembly of Parties, as amended.

(b) No entity shall be considered a successor-in-interest to Intelsat under the ITSO Agreement for licensing purposes unless it has undertaken to perform the obligations of the Public Services Agreement approved by the Twenty-fifth Assembly of Parties, as amended.

12. Any action taken or expense incurred as a result of operations pursuant to this grant of special temporary authority is at Intelsat's own risk.

13. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

8. Description (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)

Intelsat License LLC herein requests an additional 30 days, through October 19, 2014, of the Special Temporary Authority originally granted Intelsat to drift Intelsat 706 (call sign S2401) from 157.0 E.L. to 156.9 E.L., and to operate it in the C- and Ku-bands in inclined orbit until traffic is transferred to Intelsat 5 and Intelsat 706 is de-orbited.

9. By checking Yes, the undersigned certifies that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application"; for these purposes. Yes No

(U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

Re: Request for Extension of Special Temporary Authority to Drift and Operate Intelsat 706
Call Sign S2401

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days—through October 19, 2014—of the Special Temporary Authority (“STA”)¹ originally granted Intelsat to drift Intelsat 706 (call sign S2401) from 157.0° E.L. to 156.9° E.L.,² and to operate it in the C- and Ku-bands in inclined orbit³ until traffic is transferred to Intelsat 5 and Intelsat 706 is de-orbited.⁴ Intelsat seeks authority to continue operating both the satellite’s TT&C frequencies and its communications frequencies.

The specific TT&C frequencies are as follows:

Uplink:

6173.7 (LHCP)
6176.3 (LHCP)

¹ Intelsat has filed this STA request, an FCC Form 159, and a \$930.00 filing fee electronically via the International Bureau's Filing System.

² See *Policy Branch Information; Actions Taken*, Report No. SAT-01029, File No. SAT-STA-20140627-00081 (July 18, 2014) (Public Notice). Intelsat’s STA includes authority to operate both TT&C and communications frequencies. Intelsat 706 has completed its drift and is on-station at 156.9° E.L.

³ Intelsat 706 began operating in inclined orbit mode in 2011. See Letter from Susan H. Crandall, Intelsat, to Marlene H. Dortch, FCC, Call Sign S2401 (filed July 20, 2011).

⁴ Intelsat 706 is expected to be de-orbited in November 2014.

Downlink:

3947.5 (RHCP)
3948.0 (RHCP)
3952.5 (RHCP)
3952.0 (RHCP)

The specific communications frequencies are as follows:

3700 – 4200 MHz (space-to-Earth)
5925 – 6425 MHz (Earth-to-space)
10950 – 11200 MHz (space-to-Earth)
11450 – 11700 MHz (space-to-Earth)
12500 – 12750 MHz (space-to-Earth)
14000 – 14500 MHz (Earth-to-space)⁵

Grant of this STA extension request is in the public interest because it will allow Intelsat to provide continuity of service at 157.0° E.L. and help ensure safe station-keeping of both Intelsat 706 and Intelsat 5 during traffic transfer. Customers on Intelsat 706 will not be adversely affected by the redeployment contemplated herein.

Grant of this STA extension request will not result in increased risk of harmful interference. All operations will conform to Intelsat's coordination agreements for the nominal 157.0° E.L. orbital location.

Intelsat has assessed and limited the probability of the space station becoming a source of debris as a result of collision with large debris or other operational space stations. Intelsat 706 will not be located at the same orbital location as another satellite or at an orbital location that has an overlapping station-keeping volume with another satellite. Further, Intelsat is not aware of any other FCC licensed system, or any other system applied for and under consideration by the FCC, having an overlapping station-keeping volume with Intelsat 706 at 156.9° E.L. Finally, Intelsat is not aware of any system with an overlapping station-keeping volume with Intelsat 706 at 156.9° E.L. that is the subject of an ITU filing and that is either in orbit or progressing towards launch.

Intelsat requests that the Part 25 waivers originally granted to the Intelsat 706 spacecraft continue to apply at the 156.9° E.L. location, namely, the waivers of Sections 25.202(g), 25.210(a)(1), 25.210(a)(3), 25.210(i) and 25.211(a) of the Commission's rules.⁶

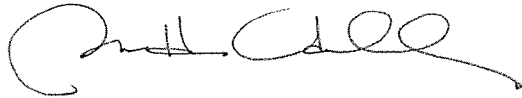

⁵ Although Intelsat 706 has the capability to transmit in the 11700 – 11950 MHz band, Intelsat does not seek authority to use these frequencies on Intelsat 706 at the 156.9° E.L. orbital location.

⁶ See *Applications of Intelsat LLC for Authority to Operate and Further Construct, Launch, and Operate C-Band and Ku-Band Satellites that Form a Global Communications System in Geostationary Orbit*, 15 FCC Rcd 15460, 15529 (Appendix C) (2000) (Memorandum Opinion and Order and Authorization), *recon. denied*, 15 FCC Rcd 25234 (2000) (Order on Reconsideration).

Ms. Marlene H. Dortch
September 17, 2014
Page 3

For the reasons set forth herein, Intelsat respectfully requests that the Commission grant this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan H. Crandall". The signature is fluid and cursive, with a large initial "S" and "C".

Susan H. Crandall
Associate General Counsel
Intelsat Corporation
