Washington, DC 20554

Re: Request for Further Extension of Special Temporary Authority to  
Operate Intelsat 7 TT&C Frequencies at 18.2° W.L.  
Call Sign S2229

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days, commencing March 29, 2015, of the Special Temporary Authority (“STA”)<sup>1</sup> previously granted Intelsat to drift Intelsat 7 (call sign S2229) from 68.65° E.L. to 18.2° W.L. and operate the satellite’s Telemetry, Tracking and Command (“TT&C”) frequencies at 18.2° W.L.<sup>2</sup> Intelsat 7 arrived on-station on December 3, 2014 and is temporarily collocated with the Intelsat 901 satellite, which currently operates at the 18.0° W.L. orbital location.<sup>3</sup> Intelsat has a pending STA to operate Intelsat 7’s TT&C and communications frequencies at 18.2° W.L.<sup>4</sup>

On-station, Intelsat will continue to utilize the satellite’s TT&C frequencies in conformance with its coordination agreements related to that location or on a non-interference, non-protected basis. The specific TT&C frequencies are 13997 MHz (RHCP) in the uplink and 11451 MHz (H and LHCP) and 11453 MHz (V and LHCP) in the downlink.

---

<sup>1</sup> Intelsat has filed this STA request, an FCC Form 159, and a \$930.00 filing fee electronically via the International Bureau’s Filing System.

<sup>2</sup> See *Policy Branch Information; Actions Taken*, Report No. SAT-01069, File No. SAT-STA-20150223-00007 (Mar. 6, 2015) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-01064, File No. SAT-STA-20150120-00005 (Jan. 23, 2015) (Public Notice); *Policy Branch Information; Actions Taken*, Report No. SAT-01062, File No. SAT-STA-20141222-00136 (Jan. 9, 2015); *Policy Branch Information; Actions Taken*, Report No. SAT-01025, File No. SAT-STA-20140421-00039 (June 27, 2014) (Public Notice).

<sup>3</sup> See *Application of Intelsat LLC for Authority to Operate, and to Further Construct, Launch, and Operate C-band and Ku-band Satellites that Form a Global Communications System in Geostationary Orbit*, Memorandum Opinion Order and Authorization, 15 FCC Rcd 15460, *recon. denied*, 15 FCC Rcd 25234 (2000).

<sup>4</sup> See *Policy Branch Information; Satellite Space Applications Accepted for Filing*, Report No. SAT-01060, File No. SAT-STA-20141224-00137 (Jan. 9, 2015) (Public Notice).

Ms. Marlene Dortch

Page 2

Grant of this STA further extension request will not result in increased risk of harmful interference. Should any interference occur, Intelsat will take all reasonable steps to eliminate such interference. Additionally, Intelsat agrees to operate Intelsat 7 at 18.2° W.L. in accordance with the frequency-related conditions in the Commission's 2004 order granting authority for the Intelsat 7 satellite to operate at 68.5° E.L.<sup>5</sup>

Intelsat has assessed and limited the probability of the space station becoming a source of debris as a result of collision with large debris or other operational space stations. Intelsat 7 will not be located in an orbital location that has an overlapping station-keeping volume with another satellite. Further, Intelsat is not aware of any other FCC licensed system, or any other system applied for and under consideration by the FCC, having an overlapping station-keeping volume with Intelsat 7 at 18.2° W.L. Finally, Intelsat is not aware of any system with an overlapping station-keeping volume with Intelsat 7 at 18.2° W.L. that is the subject of an ITU filing and that is either in orbit or progressing towards launch.

Grant of this STA further extension request will allow Intelsat to continue providing TT&C services to the Intelsat 7 satellite at 18.2° W.L., which ensures safe station-keeping of the satellite.

For the reasons set forth herein, Intelsat respectfully requests that the Commission expeditiously grant this request.

Sincerely,

Cynthia J. Grady  
Regulatory Counsel  
Intelsat Corporation
