Re: Spaceflight, Inc.;
Application for Special Temporary
Authority to Deploy and Operate
Sherpa-FX3, File No. SAT-STA-20210810-00097

Dear Ms. Dortch:

Spaceflight, Inc. (“Spaceflight”) files this letter pursuant to section 1.65 of the Commission’s regulations to update the application for special temporary authority referenced above.¹ Due to shifting customer timelines, Spaceflight seeks to amend the start of the launch window for its Sherpa-FX3 spacecraft from January 2022 to June 1, 2022.

As a result, the manifest for Sherpa-FX3 will change. Spaceflight will file an updated manifest along with the updated recontact analysis and orbital debris assessment report to reflect the change by the end of November 2021.

Please contact me with questions.

Sincerely,

/s/ Will Lewis
