On September 21, 2004, the Commission placed on public notice an application submitted by the Applicants seeking consent to the transfer of control of certain Intelsat FCC-licensed subsidiaries to Zeus ("Consolidated Application").² On November 6, 2004, the Applicants also responded by letter to a Commission request for additional information.³

At the time the Consolidated Application was placed on public notice, an application was pending seeking Commission consent to the assignment of the space station license associated with Marisat F-2, call sign KS-35, from COMSAT General Corporation (“ComGen”) to Intelsat LLC (the “ComGen Transaction”).⁴ Intelsat LLC is an indirect wholly-owned subsidiary of Intelsat (Bermuda), Ltd., which is in turn wholly-owned by Intelsat. On October 27, 2004, the Commission granted Intelsat authority to consummate the ComGen Transaction.⁵ Pursuant to this grant, ComGen assigned the following license associated with Marisat F-2 to Intelsat LLC on October 29, 2004:⁶

Part 25: Space Station License: Marisat F-2, call sign KS-35

In footnote 68 of the Consolidated Application, the Applicants indicated they would file a minor amendment to the Consolidated Application upon closing of the ComGen Transaction requesting Commission consent to transfer control to Zeus of the former ComGen licenses and

June 25, 2004). This application also sought consent to the assignment of various other licenses and authorizations from COMSAT General Corporation, Lockheed Martin Global Telecommunications LLC (“LMGT”), and Comsat New Services, Inc. to Intelsat LLC and Intelsat MTC LLC. Concurrent with this amendment, the Applicants are filing letters pursuant to Section 1.65 of the Commission’s rules to amend their pending Consolidated Application to include the other licenses and authorizations recently acquired by Intelsat LLC from COMSAT General Corporation and Comsat New Services, Inc. Similarly, the Applicants are filing amendments to the Consolidated Application to seek consent to the transfer of control of the licenses and authorizations recently acquired by Intelsat MTC LLC from LMGT to Zeus.
