**Re: Hawaii Island Fiber Network (File No. SCL-LIC-19950627-00024, SCL-MOD-20001025-00036, and SCL-MOD-20131114-00012).**

Dear Ms. Coca:

The Hawaii Island Fiber Network (“HIFN”) is jointly owned by Hawaiian Telcom Holdco, Inc. subsidiaries and Level 3 of Hawaii, LP pursuant to the above-referenced file numbers. The HIFN undersea cable system was originally licensed to GST Interisland Cable. The system has undergone changes to ownership and facilities, and a number of separate modification and pro forma applications have been filed with and granted by the Commission.

Because these changes have occurred in a number of separate transactions, Hawaiian Telcom believes that it would be helpful to list the ownership and licensing information for the various components of the cable all in one place. Those details are contained on the attachment to this letter.

Please let me know if you have any questions.

Sincerely,

*/s/ Gregory J. Vogt*

### Attachment

The Hawaii Island Fiber Network (File No. SCL-LIC-19950627-00024, SCL-MOD-20001025-00036, and SCL-MOD-20131114-00012), is jointly owned by Hawaiian Telecom Holdco, Inc. subsidiaries and Level 3 Telecom of Hawaii, L.P. (“Level 3”). HIFN was originally licensed to GST Interisland Cable. The submarine cable is operated on a common carrier basis. 50 percent of the cable strands are owned by Hawaiian Telcom, Inc. (“HTI”), and 50 percent are owned by Level 3, except that HTI owns 100 percent of the fiber strands on the Lanai and Molokai segments. The sheath of the cable is owned by Level 3, except that HTI owns the sheath for Molokai and Lanai segments. Five of the cable landing stations are owned by HTI, and two of the stations by Hawaiian Telcom Services, Inc. (“HTSC”). Both HTI and HTSC are wholly-owned subsidiaries of Hawaiian Telcom Communications, Inc. which in turn is wholly owned by Hawaiian Telcom Holdco, Inc.

The cable landing stations are located at the following places:
