

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C.

In the Matter of

NTT AMERICA, INC.,
NTT WORLDWIDE TELECOMMUNICATIONS
CO., LTD,
EDGE CABLE HOLDINGS USA, LLC,
HKT GLOBAL (SINGAPORE) PTE LTD,
PLDT, INC.,
SOFTBANK CORP., AND
VADATA, INC.

Application for a License to Land and Operate
a Private Fiber-Optic Submarine Cable System
Connecting the United States, Japan, and the
Philippines,

THE JUPITER SYSTEM

File Nos. SCL-LIC-20180517-00012
SCL-AMD-20190828-00030
SCL-STA-20190730-00023

REQUEST TO RENEW SPECIAL TEMPORARY AUTHORITY

Pursuant to 47 U.S.C. § 34, Executive Order No. 10,530, and 47 C.F.R. § 1.767, NTT America, Inc., NTT Worldwide Telecommunications Co., Ltd, Edge Cable Holdings USA, LLC, HKT Global (Singapore) Pte Ltd, PLDT, Inc., SoftBank Corp., and Vadata, Inc. (collectively, the “Applicants”), hereby request that the Commission renew and extend for an additional 180 days the special temporary authority (“STA”) previously granted to construct and connect the U.S. end points of, and test at their own risk those portions of the JUPITER system in U.S. territory prior to the Commission’s grant of the Applicants’ pending cable landing license application.¹

¹ NTT America, Inc., NTT Communications Corporation, Edge Cable Holdings USA, LLC, HKT Global (Singapore) Pte Ltd, PLDT, Inc., SoftBank Corp., and Vadata, Inc., Application

Without such authority, the JUPITER system would likely be delayed at significant cost to the Applicants and thereby delay the benefits of new capacity on the U.S.-Japan and U.S.-Philippines routes. The Applicants therefore seek renewed and extended STA beginning no later than February 18, 2020, and ending 180 days from grant. The Applicants have notified the Team Telecom agencies of this request.

The Applicants acknowledge that grant of this request will not prejudice action by the Commission on the underlying Application and that the STA is subject to cancellation or modification upon notice. Further, the Applicants acknowledge that such STA can be revoked by the Commission on its own motion without a hearing.

I. THE GRANT OF STA WILL SERVE THE PUBLIC INTEREST AND WILL NOT FRUSTRATE THE COMMISSION’S RULES

The Applicants respectfully submit that grant of this STA request will serve the public interest, convenience, and necessity and otherwise comply with U.S. law and Commission regulations. On May 17, 2018, the Applicants jointly applied for authority to land and operate the new JUPITER system connecting California, Oregon, Japan, and the Philippines. The Commission placed the application on streamlined public notice on August 8, 2018.² The Team Telecom agencies later requested that the application be processed on a non-streamlined basis pending completion of a national security review. The JUPITER system will offer capacity in

for a License to Land and Operate a Private Fiber-Optic Submarine Cable System Connecting the United States, Japan, and the Philippines, File No. SCL-LIC-20180216-00002 (filed May 17, 2018) (“Application”); Request for Special Temporary Authority, File No. SCL-STA-20190730-00023 (filed July 30, 2019; granted Aug. 22, 2019) (“JUPITER STA”). Since the Commission granted the original JUPITER STA, NTT Communications Corp. assigned to NTT Worldwide Telecommunications Co., Ltd., its interests in the JUPITER system in a *pro forma* transaction separately notified to the Commission as an application amendment. *See* Second Amendment to Cable Landing License Application, File Nos. SCL-LIC-20180517-00012 and SCL-AMD-20190828-00030 (filed Aug. 28, 2019).

² *Streamlined Submarine Cable Landing License Applications Accepted for Filing*, Public Notice, Report No. SCL-00219S (rel. Aug. 8, 2018).

large increments until the year 2045, far beyond the useful life of many existing systems serving U.S.-Japan and U.S.-Philippines routes—routes where capacity demand continues to grow significantly.³ It will also provide critical low-latency, U.S.-Asia connectivity for data centers operated by certain of JUPITER’s owners.⁴

Grant of the Applicants’ request will also serve the public interest in two particular ways. *First*, it will ensure the timely construction and commencement of operations of the JUPITER system, with long-term, large-increment, low-latency capacity on the U.S.-Japan and U.S.-Philippines routes. *Second*, it will avoid imposing needless and avoidable costs on the Applicants.

II. THE FEDERAL COMMUNICATIONS COMMISSION HAS AUTHORITY TO GRANT THE STA REQUEST

The Commission has ample authority to issue STA for construction, connection, and testing prior to the grant of a cable landing license. Neither the Cable Landing License Act nor Executive Order 10,520 (delegating submarine cable licensing authority from the President to the Commission, subject to Executive Branch review) limits the Commission’s ability to issue an STA for construction, connection, testing, and/or operational authority prior to grant of a cable landing license.⁵

To the contrary, the Commission has exercised such authority on numerous occasions and should also do so in this case. The Commission has granted, upon a showing of good cause, STA for purposes of construction in U.S. territory, connection of a system’s end points, and testing in U.S. territory prior to the issuance of a cable landing license for the SEA-US, Atisa,

³ Application at 2.

⁵ *See* 47 U.S.C. §§ 34-39; Executive Order 10,530.

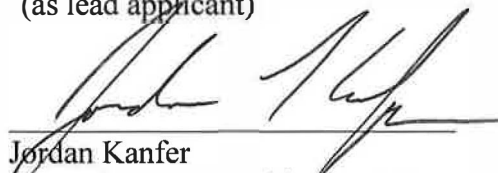

Marea, BRUSA, and Crosslake Fibre systems.⁶ The Applicants seek the same authority here to construct, connect the U.S. end points, and test the JUPITER system in U.S. territory.

CONCLUSION

For the foregoing reasons, the Commission should expeditiously grant this STA request.

Respectfully submitted,

NTT AMERICA, INC.
(as lead applicant)

Jordan Kanfer
