Re: Neutral Networks USA LLC, Request for Special Temporary Authority, File No. SCL-STA-20210930-00040

Dear Ms. Dortch:

On September 30, 2021, Neutral Networks USA LLC ("Neutral Networks") filed a request for special temporary authority ("STA Request") to permit it to construct, connect, and test the portion of the Neutral Networks Laredo Cable ("NNLC") in U.S. territory during the pendency of the submarine cable landing license application for the NNLC. See File No. SCL-STA-20210930-00040. In the STA Request, Neutral Networks sought temporary authority beginning no later than October 15, 2021, and ending upon action by the Commission on the submarine cable landing license application. By this letter, Neutral Networks clarifies that it is seeking special temporary authority ending 180 days from the date of grant of the STA Request.

Please direct any questions regarding this filing to the undersigned.

Respectfully submitted,

/s/ Edgar Class
