Subject: Apollo Subcable Transfer of Control; File No.: SCL-T/C-20100407-00011

David, This email is to clarify the ownership structure of the Apollo cable system. The FCC licensee of the Apollo submarine cable is Cable & Wireless Americas Systems, Inc. ("CWAS"). CWAS is directly owned by Apollo Submarine Cable System Limited (UK) which is 55% owned by Cable & Wireless Global Network Ltd. (Ireland) and 45% owned by Alcatel Submarine Networks Ltd (UK). Cable & Wireless Global Networks Ltd (Ireland) had been ultimately controlled by Cable & Wireless plc. On April 7, 2010, CWAS submitted a pro forma transfer of control application. See. File No.: SCL-T/C-20100407-00011 The chain of ownership and pro forma transfer of control of CWAS are detailed in that application. If you have any further questions, Please let me know. Robert Mazer
