**APPLICATION FOR TRANSFER OF CONTROL OF  
CABLE LANDING LICENSEE  
STREAMLINED PROCESSING REQUESTED**

Cedar Cable Ltd. (“Cedar Cable”), its ultimate parent company, KeyTech Limited (“KeyTech”), and Atlantic Tele-Network, Inc. (“ATN”) (collectively, the “Applicants”), pursuant to an Act Relating to the Landing and Operation of Submarine Cables in the United States, 47 U.S.C. §§ 34-39 (1994), Executive Order No. 10530, Exec. Ord. No. 10530 *reprinted as amended in* 3 U.S.C. § 301, and Section 1.767 of the Rules of the Federal Communications Commission (“Commission”), 47 C.F.R. § 1.767, hereby request approval to transfer control of KeyTech’s ownership interest in Cedar Cable, a licensee of the CB-1 System (FCC File No. SCL-LIC-20080603-00011), to ATN.

As further described below, ATN has agreed to acquire a controlling interest in KeyTech and its subsidiary Cedar Cable (the “Transaction”). As a result of the Transaction, ATN will

indirectly control Cedar Cable. Although indirect control of Cedar Cable will change, Cedar Cable will continue to provide private carriage services to its existing customers under existing service arrangements pursuant to its submarine cable landing license granted by the Commission. The Transaction, therefore, will be seamless to Cedar Cable's customers. In addition, the Transaction will not affect the owner of the U.S. landing point of the CB-1 System in Charlestown, Rhode Island and related facilities, MFS CableCo US, Inc. ("Verizon Business").

Applicants request streamlined processing for this Application pursuant to Section 1.767(k)(2) of the Commission Rules. A prompt and expeditious grant of this Application will significantly advance the public interest, convenience and necessity.

Applicants provide the following information in support of this Application:

**I. THE APPLICANTS**

**A. Cedar Cable Ltd. (Licensee) and KeyTech Limited (Transferor)**

Cedar Cable is a company organized under the laws of Bermuda. Cedar Cable is 100% owned by Chancery Holdings Limited ("Chancery"), a wholly-owned subsidiary of KeyTech, which also is organized under the laws of Bermuda. KeyTech is a publicly traded company trading on the Bermuda Stock Exchange. KeyTech is a diversified telecommunications holding company focused largely on the Bermuda and Cayman Islands telecommunications markets.

Cedar Cable owns all of the capacity on the CB-1 System, which links Bermuda and the United States, within the 200 nautical mile limit of the exclusive economic zone of the United States. The CB-1 System's U.S. cable landing station, which is owned and controlled by Verizon Business, is in Charlestown, Rhode Island.

## **B. Atlantic Tele-Network, Inc. (Transferee)**

Founded in 1987, ATN is organized under the laws of the state of Delaware and headquartered in Beverly, Massachusetts. ATN's shares trade publicly on NASDAQ, and ATN has no controlling owner. ATN is an experienced and financially sound facilities-based carrier that has a long and successful history of providing communications service to island-based, rural, tribal, and other underserved markets in the mainland United States, Bermuda, and the Caribbean region. Through its operating subsidiaries, ATN provides both wireless and wireline connectivity to residential and business customers, including a range of mobile wireless solutions, local exchange services and broadband internet services. ATN also is the owner and operator of terrestrial and submarine fiber optic transport systems domestically and internationally, including a fiber network serving the New York and New England region, a partial interest in the Americas II submarine cable connecting the U.S. mainland and the Caribbean region, and a submarine cable system linking Trinidad and Tobago, Suriname, and Guyana.

## **II. THE PROPOSED TRANSACTION**

On October 5, 2015, KeyTech and its subsidiary Chancery entered into a transaction agreement with ATN and its wholly-owned subsidiaries, ATN Caribbean Holdings, Ltd., an exempted Bermuda company, and ATN Bermuda Holdings, Ltd., a Bermuda company, whereby ATN will acquire a controlling interest in KeyTech and its subsidiaries, including Cedar Cable, as part of a proposed business combination of KeyTech with Bermuda Digital Communications, Ltd. ("Bermuda Digital Communications"). The proposed transaction will combine Bermuda Digital Communications, a leading mobile provider in Bermuda doing business under the "CellOne" name, with KeyTech, a Bermuda company that provides voice, broadband, and cable

television services under the “Logic” name in Bermuda and the Cayman Islands. ATN and KeyTech together currently own approximately 85% of CellOne. As part of the proposed transaction, ATN will contribute its current ownership interest of approximately 43% in CellOne and additional consideration in cash in exchange for a 51% stake in KeyTech, to be held by ATN’s wholly owned subsidiary, ATN Caribbean Holdings, Ltd., a Bermuda company. Accordingly, upon consummation of the Transaction, ATN will therefore hold an indirect 51% ownership interest in KeyTech, which will continue to hold a 100% indirect ownership interest in Cedar Cable. The Transaction is governed by Bermuda law and is subject to certain conditions, including obtaining necessary approvals from the Commission and other regulatory bodies. For the Commission’s convenience, pre- and post-closing organization illustrative charts are provided as Exhibit A.

### **III. PUBLIC INTEREST CONSIDERATIONS**

Consummation of the Transaction described herein will serve the public interest because it will lead to the emergence of a more robust competitor in the submarine cable market for capacity between the United States and Bermuda. As part of ATN’s fiber cable portfolio, Cedar Cable will have better access to resources and capital needed to maintain and grow Cedar Cable’s submarine cable capacity business. It also will benefit from ATN’s significant experience with submarine fiber optic transport systems, including submarine cable systems in the Caribbean and South America.

Moreover, the change in ownership of Cedar Cable will not have any adverse impact on existing customers. Cedar Cable will continue to possess the managerial and technical qualifications to provide submarine capacity between Bermuda and the United States. Because the Transaction will be completed at the holding company level and will not change the rates,

terms or conditions of Cedar Cable's services, the Transaction will not result in a change of service provider for Cedar Cable's customers and will otherwise be transparent to customers of Cedar Cable. Immediately following consummation of the Transaction, Cedar Cable will continue to provide high-quality private carriage services to its customers without interruption and without immediate change in rates, terms or conditions.

At the same time, a grant of the Application would not result in any anticompetitive effects. For these reasons, Applicants respectfully submit that this Transaction is in the public interest.

#### **IV. INFORMATION REQUIRED BY SECTION 1.767 OF THE FCC'S RULES**

In support of this Application, Applicants submit the following information in accordance with Section 1.767(a) of the Commission's Rules, 47 C.F.R. § 1.767(a):

**Section 63.18(o) - Certification Regarding the Anti-Drug Abuse Act of 1988:**

By their signature to this Application, Applicants certify, pursuant to Sections 1.2001 through 1.2003 of the Commission’s Rules, 47 C.F.R. §§ 1.2001-1.2003) (implementing the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 3301), that they are not subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988.

**(8)(ii) - Certification Regarding Foreign Carrier Status and Foreign Affiliation:**

By its signature to this Application, Cedar Cable certifies that it is not a foreign carrier and that post-closing it will be affiliated with the following foreign carriers:<sup>2</sup>

- Cable Co. Ltd., which holds an International Public Telecommunications License and a Foreshore License in Bermuda.
- Bermuda Digital Communications Ltd., a cellular carrier in Bermuda.
- WestTel Limited, a provider of data, video and voice services over a domestic network in the Cayman Islands.
- DTH Television & Telecommunication N.V., d/b/a MIO Aruba, a telecommunications carrier in Aruba.
- Guyana Telephone & Telegraph, Ltd. d/b/a GT&T, the incumbent telecommunications carrier in Guyana.
- B.V.I. Cable TV Ltd. d/b/a BVI Cable TV, which is authorized to provide telecommunications services in the British Virgin Islands, although it presently provides only cable television services in that market.<sup>3</sup>

<sup>2</sup> Previously, Cedar Cable was affiliated with the Bermuda Telephone Company (“BTC”), Bermuda’s incumbent local exchange carrier. In 2014, KeyTech sold its interest in BTC and they are no longer affiliates.

<sup>3</sup> ATN has entered into an unrelated transaction to acquire control of the Innovative group of companies that provide local exchange, exchange access, domestic intrastate and interstate interexchange, international telecommunications, commercial mobile radio, wireline broadband

**(8)(iii) - Certification Regarding Destination Markets:**

By its signature to this Application, ATN certifies that, with the exception of Bermuda, it does not seek to operate a submarine cable connecting the United States to any country in which: (1) it is a foreign carrier; (2) it controls a foreign carrier in that country; (3) there exists any entity that owns more than 25% of ATN, or controls ATN, or controls a foreign carrier in that country; or (4) it is a party to, or the beneficiary of, a contractual relationship with a foreign carrier (or party controlling a foreign carrier) affecting the provision or marketing of arrangements for the terms of acquisition, sale, lease, transfer and use of capacity on the cable in the United States. The Commission has long treated Bermuda effectively as a World Trade Organization (“WTO”) member, as the U.S. Government treats all British overseas territories as subject to U.K. WTO commitments.<sup>4</sup>

**(9) Certification of Compliance:**

By its signature to this Application, ATN certifies that it accepts and will abide by the routine conditions set forth in Section 1.767(g) of the Commission’s Rules, 47 C.F.R. § 1.767(g).

**(10) Not Applicable.**

**(11) Information Required of Transfer of Control Applicants.**

A description of the cable landing license held by Cedar Cable and the file number of this license is attached hereto as Exhibit B.

## **V. STREAMLINED PROCESSING REQUEST**

The Applicants hereby request streamlined processing pursuant to Sections 1.767(j) and (k) of the Commission's rules, 47 C.F.R. §§ 1.767(j), (k). In particular, post-closing, none of the Applicants will be affiliated with a dominant foreign carrier in Bermuda. The Applicants qualify for a presumption of non-dominance under Section 63.10(a)(3) because their Bermudian affiliates are not monopoly providers of communications services in Bermuda and they lack 50% market share in the international transport and the local access markets in Bermuda. Moreover, this application raises no competition or public interest concerns that would require consideration outside of the Commission's streamlined review process. For all of these reasons, this application is eligible for streamlined processing under the Commission's rules.

## VII. CONCLUSION

For the foregoing reasons, Applicants respectfully submit that the public interest, convenience, and necessity would be furthered by the expeditious grant of this Application. Applicants respectfully request expedited and streamlined processing of this Application to permit the parties to consummate the Transaction as soon as possible.

Respectfully submitted,
