**NOTIFICATION OF *PRO FORMA* TRANSFER OF CONTROL
OF CABLE LANDING LICENSES**

Pursuant to an Act Relating to the Landing and Operation of Submarine Cables in the United States, 47 U.S.C. §§ 34-39, and Section 1.767 of the Commission's Rules, 47 C.F.R. § 1.767, Verizon Communications Inc. ("Verizon") through its regulated subsidiaries hereby notifies the Federal Communications Commission ("Commission" or "FCC") of the *pro forma* transfer of control of MFS Globenet, Inc.'s ("MFS Globenet") ownership interest in the Southern Cross Cable Network, File No. SCL-MOD-20020430-00045, as part of a planned internal corporate restructuring involving indirect wholly owned subsidiaries of Verizon. MFS Globenet owns: (1) the landing stations in Morro Bay, California and Nedonna Beach, Oregon; (2) 100% of the U.S. segment of the cable system; and (3) 10.01% indirectly of the non-U.S. segments of the cable system.¹

Description of Transaction and Public Interest Statement

The restructuring involved the elimination or relocation of several holding companies in the Verizon ownership chain, resulting in the transfer of control of certain FCC licenses and

¹ MFS Globenet held a license for the Gemini Cable System, File Nos. SCL-MOD-19961025-00532 and SCL-MOD-19961206-00616, but this system was retired in 2004.

authorizations from and to Verizon. Specifically, the following sequence of steps was completed on December 31, 2015:

- PCS Nucleus, L.P. was dissolved.
- JV PartnerCo, LLC merged into Verizon Americas Inc. (“Verizon Americas”).
- Verizon Holdings LLC merged into Verizon Americas. As a result, Verizon Americas’ 45 percent indirect ownership interest in Cellco Partnership became a 45 percent *direct* ownership interest.
- Verizon Americas Finance 2 Inc. merged into Verizon Americas Finance 1 Inc.
- MCI Communications Corporation transferred control of MCI International, Inc. (“MCIII”) to Verizon Business Network Services Inc. (“NSI”)
- NSI contributed its 2.6% ownership interest in MCI International Services, Inc. (“MCIIS”) to MCIII. As a result, MCIIS became a wholly owned subsidiary of MCIII.
- NSI transferred control of Terremark Worldwide Inc. through MCIII and MCIIS to MCI International Telecom Corp.

Attached hereto are charts showing the indirect ownership of the affected licensees before and after the transactions.²

Because the restructuring did not change the ultimate control of any license or licensee (Verizon’s ultimate interest in the licensee remains the same), it is *pro forma* in nature.³ The Commission has stated that, in situations “where no substantial change of control will result from

² The lists of file numbers referenced in the instant notification is intended to be complete and include all licenses under the control of Verizon that require prior approval for their transfer. However, Verizon requests that Commission acceptance of the *pro forma* transfer notification include any authorizations that may have been inadvertently omitted.
