43. Description. (Summarize the nature of the application and the services to be provided).

Applicant NewCom International seeks to amend its pending modification application of a transmit/receive common carrier C-band earth station at Miami, Florida for the provision of voice and data services to revise the operating parameters for each antenna in E47, E48, and E49 to include a range of emission designators and corresponding maximum EIRP per carrier values and maximum EIRP density per carrier values and to revise the total EIRP in E40
