Re: SES Americom, Inc., Application for amendment of license application for Ku-Band Earth Station Operating at Sunset Beach, HI, File No. SES-AFS-20200103-00002 (Call Sign E190489)

Dear Ms. Dortch,

SES Americom, Inc., pursuant to Section 1.65 of the Commission's rules, 47 C.F.R. § 1.65, hereby updates the record with respect to the above-captioned request for the amendment of earth station operating authority to provide updated information.

As per the amendment application, the Purpose of Modification (Question 27 on page 6) has been specified as (c)-authorization to increase EIRP and EIRP density and (i)-authorization to add Points of Communication.

However, the Points of Communication that the earth station intended to communicate is already specified in the original application and the authorization to add Points of Communication is not relevant in the amendment filing. So, we kindly request to consider "(i)-authorization to add Points of Communication" as excluded in the filing of amendment.

Please address any questions regarding this matter to the undersigned.

Yours Sincerely,

/s/ George Varkey
