Subject: Changes to SKYLink FCC License Application

Frank,

As regards ARINC's license application (File SES-LIC-20030910-01261), I have marked a copy of the SKYLink Technical Description, as requested, to highlight the differences between the original Exhibit and the amended Exhibit. A fax copy of the changes will be difficult to read and I would prefer to hand-carry it to you next week. All of the changes appear in Section 5 of the amended SKYLink Technical Description and are individually marked as revised pages. The specific pages are 43, 44, 47 and 48 and are formatted to be page-for-page replacements to the original Exhibit.

We are currently trying to arrange a day and time next week when we can hand-carry our response to Boeing Company's Further Comments filed with the FCC on 12/19/03. This might provide an opportune time to present both items.

I will be out of the office from 04/02/04 through 04/08/04. If you have further questions or we can be of any assistance, please contact Bruce Miller at telephone 410-573-3509 or at his email address above.
