Looks good Shahnaz. Maybe just add the DA number of the Public Notice and say at the end "and, by this Notice, is removed from Public Notice."

This is what I'm going to have put on the PN. If you have any suggestions, please advise.

The SWE-DISH Satellite Communications application, file # SES-AMD-20040116-00057, was erroneously placed on the Public Notice on April 14, 2004 and, therefore, will be removed from the Public Notice.
