**43. Description. (Summarize the nature of the application and the services to be provided).**

This application seeks to amend the pending application to modify the license held by Amtech Systems LLC to add the Inmarsat 3F4 satellite as a backup point of communication. This amendment changes the response to Schedule B Question E55 from '139 WL' to '142 WL,' and makes corresponding changes to the elevation and azimuth angles. Additionally, this application provides an updated reference to Schedule S information for the Inmarsat 3F4 satellite that has previously been filed with the FCC. Other than these changes, Amtech Systems LLC seeks to operate its mobile earth terminals in a manner consistent with the technical parameters described in the pending modification application.
